Every journal publishes papers and reviews that they are very proud of, and *Metabolomics* is no different. In order to recognize the excellent research published in this journal the following prizes will be awarded to the most downloaded original articles and reviews published in the previous year:

- Best Paper Award—for the Original Article with the highest total number of downloads during the previous year. The first author of the winning paper receives a complimentary ebook from Springer (value 200€), a front cover image in the *Metabolomics* journal, and the paper will be made freely available for 30 days.
- *The runner-up paper* will also be made freely available for 30 days.
- Best Review Award—for the Review Article with the highest total number of downloads during the previous year. The first author of the winning paper receives complimentary e-books from Springer (value 200€), a front cover image in the *Metabolomics* journal, and the paper will be made freely available for 30 days.
- *The runner-up review* will also be made freely available for 30 days.

In order for a paper to be eligible for these awards it must be either a primary research paper (which may include best practice or standards articles, as well as letters and short communications) or a review article (which includes white papers) that was published in its final form in 2018. All awards will be based on popularity via downloads.

Congratulations to the following 2019 winners!!!

1 Best Paper Award published in 2018

- *Winner*—Pan, D., Lindau, C., Lagies, S., Wiedemann, N. & Kammerer, B. (2018) Metabolic profiling of isolated mitochondria and cytoplasm reveals compartment-specific metabolic responses. *Metabolomics* **14**: 59. <https://doi.org/10.1007/s11306-018-1352-x>
- *Runner up*—Catala, A., Culp-Hill, R., Nemkov, T. & D'alessandro, A. (2018) Quantitative metabolomics comparison of traditional blood draws and TAP capillary blood collection. *Metabolomics* **14**: 100. <https://doi.org/10.1007/s11306-018-1395-z>

2 Best Review Award published in 2018

- *Winner*—Broadhurst, D., Goodacre, R., Reinke, S.N., Kuligowski, J., Wilson, I., Lewis, M. & Dunn, W.B. (2018) Guidelines and considerations for the use of system suitability and quality control samples in mass spectrometry assays applied in untargeted clinical metabolomic studies. *Metabolomics* **14**: 72. <https://doi.org/10.1007/s11306-018-1367-3>
- *Runner up*—Rosato, A., Tenori, L., Cascante, M., De Atauri Carulla, P.R., Martins dos Santos, V.A.P. & Saccenti, E. (2018) From correlation to causation: analysis of metabolomics data using systems biology approaches. *Metabolomics* **14**: 37. <https://doi.org/10.1007/s11306-018-1335-y>
