Unfortunately, we encountered an error with units of measure in reporting data in the last two columns of Table 3 (on page 28814 in the printed version), so that those data should be changed as reported in the following corrected version of the Table:

Since the data reported in those columns are commented in the article only in a comparative way, the merely numerical error has neither consequence in any part of text, nor in the original caption of Table 3, nor in the discussion of results and conclusions.
