The average nutrient concentrations values presented in Table 1 on page 4 in the publication have the unit mg L⁻¹ for the mineral nutrients Fe, Zn, B, Mn and Cu and must read as follows:

Table 1 Average nutrient concentrations (± standard error of $n = 4$ batches) found in the two urine-based recycling fertilizers ‘Crop’ & ‘Aurin’, as well as in Struvite and Vinasse (as provided by the SF-SoepenberGmbH)

Mineral nutrient	Unit	‘Crop’	‘Aurin’	Unit*	Struvite	Vinasse
