Correction to: Environ Sci Pollut Res

<https://doi.org/10.1007/s11356-022-18783-1>

The authors regret the simulant type in the first sentence of Results and Discussion is miswritten. The correct form of the sentence is presented here: Rates of migration of PFOA and PFOS from non-stick cookware were determined using the 50% ethyl alcohol simulant with different volumes at 70 °C for 2 h. The authors would like to apologize for any inconvenience caused.

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
