Equation 6 in the originally published article has an error—the numerator S should be F. The correct equation is presented below.

$$K(F) = K_{\text{sat}} F^{0.5} \left[\frac{\int_0^F \frac{1}{h(x)} dx}{\int_0^1 \frac{1}{h(x)} dx} \right]^2 \quad (6)$$

The original article has been corrected.
