In this special issue of the Journal of Economic Interaction and Coordination, we present ten papers discussed at the 2006 Econophysics Colloquium which was held in Tokyo at the International Christian University (ICU) in November 2006. We would like to thank all members of the ICU staff who helped in making this event a success and, in particular, Mr. Yukio Maeda, Prof. Lukas Pichl, Dr. Takuya Yamano and Prof. Takako Ueta. We would also like to acknowledge financial support by the International Christian University, the Japan Society for the Promotion of Science, East Piedmont University, Italy, the Social Science Research Institute at ICU and the Kajima Foundation.

The Econophysics Colloquium is gaining momentum, and after the Ancona edition of 2007, in 2008 it will be held in Kiel and organized by Prof. Thomas Lux and his group.
