Correction to: Forensic Toxicol DOI 10.1007/s11419-017-0386-5

Unfortunately, in the original publication of this article, two sentences were described incorrectly.

In the “Sample preparation” section, for pulverizing and homogenizing the plant samples, we described “at 3000 rpm for 10 min” twice. These were not correct, and should be “at 3000 rpm for 10 s”.

The maximum operation time of the Multi-Beads Shocker is 10 s, and if the pulverization/homogenization is performed for 10 min, the machine and sample may be damaged due to being overheated.

The online version of the original article can be found under doi:[10.1007/s11419-017-0386-5](https://doi.org/10.1007/s11419-017-0386-5).
