1. In the results, we mistakenly described the information of Figure 9B. The correct sentence should be “The factor 1 and factor 2 explained 71.30% and 16.68% of the total variance, respectively. The 0 mmol L<sup>-1</sup> NaCl concentration showed the highest contribution (29.95%) to factor 1 in roots of E+ plants, and 200 mmol L<sup>-1</sup> NaCl concentration was significantly loaded (45.95%) on factor 2 in roots of E+ plants (Figure 9B).”

2. We mistakenly uploaded Figure 9B and the correct Figure 9B should be as follows:
