The article [Laboratory testing and numerical simulation of properties and thermal-induced cracking of Eibenstock granite at elevated temperatures], written by [Fei Wang, Heinz Konietzky, Thomas Frühwirt and Yajie Dai], was originally published Online First without Open Access. After publication in volume [15], issue [8], page [2259–2275] the author decided to opt for Open Choice and to make the article an Open Access publication. Therefore, the copyright of the article has been changed to © [The Author(s)] [2021] and this article is licensed under a Creative Commons Attribution 4.0 International License, which permits use, sharing, adaptation, distribution and reproduction in any medium or format, as long as you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons licence, and indicate if changes were made.
