Correction to: Journal of Neuroimmune Pharmacology
<https://doi.org/10.1007/s11481-020-09959-y>

The original version of this article unfortunately contained mistakes.

1. abstract first sentence is missing a “of”

While there is an emerging consensus that engagement of the Mu opioid receptor by opioids may modulate various stages the HIV life cycle (e.g.: increasing cell susceptibility to infection, promoting viral transcription, and depressing immune responses to virally-infected cells), the overall effect on latency and viral reservoirs remains unclear.

should read

While there is an emerging consensus that engagement of the Mu opioid receptor by opioids may modulate various stages of the HIV life cycle (e.g.: increasing cell susceptibility to infection, promoting viral transcription, and depressing immune responses to virally-infected cells), the overall effect on latency and viral reservoirs remains unclear.
