

## Abstracts Guide

This issue first presents the submitted abstracts selected for oral presentation (Section I), and then presents submitted abstracts selected for poster presentation (Section II). The abstracts are arranged according to subject matter, and the corresponding headings are listed below. For the oral sessions, each of the 13 subjects is assigned a number (from 01 to 13), the first two numbers of a given abstract. For example, to find Abstract 13-05, the first two digits (13) represent the Urban Social Environment and Health subject, and the last two digits (05) represent the abstract number itself, listed chronologically within each section. For the poster sessions, each of the 12 subjects is assigned a number, preceded by the letter “P” (from P01 to P12), followed by the last two digits that represent the abstract number itself.
