This issue of the journal is a special issue organized by the AECT International Division with guest editors Yu-Chang Hsu (Boise State University) and Charles Xiaoxue Wang (Florida Gulf Coast University). These scholars have put together a great issue for you! You will find more information about the papers in this issue in their Guest Editors' Notes. I appreciate all of the work they did over several months to make this issue a reality, and I know you will too!

In addition to the special issue content, this issue includes some of our regular columns. Be sure to read the Rethinking Technology & Creativity in the twenty-first Century, History Corner, Graduate Member Musings, Leading Matters, and Book Reviews. I hope you enjoy the issue! The next issue, July 2019, is a regular issue of the journal with an eclectic mix of papers.
