This issue of the *TechTrends*, is a special issue guest edited by Nancy Hastings and Jennifer Bauman for the Organizational Training and Performance division of AECT. This team has put together a great issue for you; it contains 14 original papers! Their Guest Editors' Notes will provide an introduction to the issue. I appreciate all of the work they did to make this issue come together!

The issue also includes some of our regular columns. Be sure to read the Rethinking Technology & Creativity in the

21st, Graduate Member Musings, and The History Corner. I hope you find the issue interesting!
