This issue of the *TechTrends*, is a special issue guest edited by a team from the AECT Systems Thinking and Change Division: Beth Rajan Sockman, Fredrick W. Baker III, Samantha J. Blevins, M. Aaron Bond, and Angela Doucet Rand. They have put together a great issue for you containing ten papers. Their Guest Editors' Notes is a detailed introduction to the issue. I appreciate the months of hard work and collaboration they did to bring this issue to fruition! I also appreciate the authors who submitted their work to the issue! While the papers are tied together by systems thinking and change, I think you will find them to have a good degree of variation too. The issue also includes some of our regular columns. Be sure to read the Rethinking Technology & Creativity in the 21st and Graduate Member Musings. I hope you find the issue interesting!

As always, if you are interested in submitting a manuscript to *TechTrends*, or if you want to be a reviewer, please contact me. Encourage your colleagues to submit their work to *TechTrends*, to read *TechTrends*, and to consider joining AECT! If you have a question about the journal, my phone number is 912-478-0497 and my email address is chodges@georgiasouthern.edu. Email is always the best way to reach me. Also, you can follow *TechTrends* on Twitter: @AECTTechTrends.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
