**Erratum to: Mycol Progress (2016) 15: 7**  
**DOI 10.1007/s11557-015-1154-8**

The original publication unfortunately contained an error. The authors have just realised that the wrong collection number was used for the holotype in the description of the new species *Lithothelium immersum*. See below for the correct citation:  
Typus: Brazil, Rondônia/Amazonas-border, Fazenda São Francisco off BR319, 30 km N of Porto Velho, 8°24'33" S, 63°58'56"W, alt. c. 100 m, on tree bark in primary rain forest, 15 March 2012, M. Cáceres & A. Aptroot 11919 (ISE— holotypus, ABL— isotypus) (Fig. 6).
