

## Special issue on waves and stability

© Università degli Studi di Napoli “Federico II” 2016

The second issue of 2016 of *Ricerche di Matematica* and the first one of 2017 are *Special Issues* devoted to *Waves and Stability*. I thank the contribution of all the Authors and stress that a large spectrum of research fields has been investigated by them. The aim of these *Special Issues* is to try to contribute significantly to the modern international literature on *Waves and Stability*.

Prof. Salvatore Rionero  
Editor in Chief  
*Ricerche di Matematica*
