Each year, the *Journal of General Internal Medicine* Editors identify those reviewers who did an exceptional job reviewing for us. To be included in this prestigious group, one must perform three or more reviews, return all reviews within 30 days, and receive no quality score on any review lower than 4 on a 1–6 Likert scale. This terrific and selfless work is critical to the quality of the *Journal* and to the authors who submit their manuscripts for review—and it is often unrecognized. We want to take this opportunity to recognize each of you and thank you for all of your efforts on behalf of JGIM.
