Correction to: In Vitro Cellular & Developmental Biology - Plant
<https://doi.org/10.1007/s11627-020-10078-9>

Readers should note the following error in the original version of this article:

The sentence that now correctly reads “However, some accessions (including IC468878 used in the present study) have a short conservation period and require to be subcultured every 1-2 mo.” instead read “However, some accessions (including IC468878 used in the present study) have a short conservation period and require to be subcultured every 6 mo.”
The original article has been corrected.

The online version of the original article can be found at <https://doi.org/10.1007/s11627-020-10078-9>
