Correction to: Obesity Surgery

<https://doi.org/10.1007/s11695-021-05678-2>

There is an error in the Conclusion section of the Abstract.
The corrected text follows:

Conclusion The anastomotic technique for creating of the GJA may impact the formation of strictures. Based on our experience, gastrojejunostomies created with a 25-mm EEA-stapling technique are at higher risk of strictures.
