Correction to: Chemical Papers
<https://doi.org/10.1007/s11696-020-01440-7>

The original version of this article has been corrected.

In the original version of this article, unfortunately the Table 6 has been misplaced after the first reference in the reference list and Farag Ibraheem has to be moved to the end of the authors list.

Table 6 Comparative physiological responses of corn hybrid plants to different fertilizer treatments

Treatment	Photosynthetic pigments (µg/ g F.WT)				Carbohydrates (mg/g Dwt)	
	Chlorophyll a	Chlorophyll b	Carotenoids	Total pigments	Sucrose	TSS
Zn(II)-H ₂ L ²	23.15 ^a	7.45 ^a	6.36 ^a	36.97 ^a	1.57 ^a	2.80 ^a
NH ₄ NO ₃	15.72 ^b	5.32 ^b	4.27 ^b	25.32 ^b	1.46 ^b	1.91 ^b
Non-fertilized	10.69 ^c	3.00 ^c	3.27 ^c	16.96 ^c	1.11 ^c	1.40 ^c

Shown values are the means of various fractions of photosynthetic pigments, sucrose, and total soluble sugars. Means with different letters indicate significant statistical difference among treatments at ($P \leq 0.05$)

The original article can be found online at <https://doi.org/10.1007/s11696-020-01440-7>.
