**Correction to: Chemical Papers**  
<https://doi.org/10.1007/s11696-022-02391-x>

In the original online version, the second sentence in the abstract section and the chemical formula in page 3 was incorrectly published.

It was previously read as:

Leaching behaviour of Nd (simulSant for rare earth) from the Nd-substituted Ca-fluoroapatite ( $\text{Nd}_x\text{CaFAp}$ ) matrix was evaluated systematically by using dynamic leaching conditions.

It should be published as

Leaching behaviour of Nd (simulant for rare earth) from the Nd-substituted Ca-fluoroapatite ( $\text{Nd}_x\text{CaFAp}$ ) matrix was evaluated systematically by using dynamic leaching conditions.

In Page 3 the chemical formula previously read as

$\text{Ca}_{10-x}\text{Nd}_x(\text{PO}_4)_6\text{F}_2$ , ( $x = 0-1.2$  mol).

It should be published as

$\text{Ca}_{10-x}\text{Nd}_x(\text{PO}_4)_6\text{F}_2$ .

The original article has been corrected.
