Figure 2(b) on Page 476: It has come to our attention that the data of (i) Co NTAs in Fig. 2(b) is not correct, because we imported the same group of data of PPy@NiCo HNTAs accidentally while plotting with Origin. The corrected Fig. 2(b) is shown below. The data analysis and conclusions are not affected by this unintentional error.

The text on Page 474: The sentence of “Figures 2b(i) and 2b(ii) show Co  $2p_{1/2}$  peak of NiCo NTAs negatively shifts  $\sim 0.4$  eV relative to that of Co NTAs” is not correct, and it should be revised as below: “Figures 2b(i) and 2b(ii) show Co  $2p_{3/2}$  peak of NiCo NTAs negatively shifts  $\sim 0.35$  eV relative to that of Co NTAs.”
