

Hanlong LIU, Xuanming DING

Propagation characteristics of transient waves in low-strain integrity testing on cast-in-situ concrete thin-wall pipe piles

© Higher Education Press and Springer-Verlag 2009

Front. Archit. Civ. Eng. China 2009, 3(2): 180–186

Due to typesetting production errors, some mistakes were made. The Editorial Office regrets these errors.

(1) The title of Fig. 5 should be “Velocity response spectrum at different points on top of pile”;

(2) The title of Fig. 7 should be “Velocity response spectrum of pipe piles with different impulse widths”.
