Erratum to: *Acta Physiol Plant* (2017) 39:146 DOI 10.1007/s11738-017-2445-2

Unfortunately, two reference citations were published incorrectly in the original publication of the article. In the last section before the Conclusion part, the 2nd and 3rd sentence should read as:

Studies performed on spp heterozygotes indicate that the protein is involved in pollen development and germination (Han et al. 2009). The SPPL1, SPPL2 and SPPL3 transcripts were detected in the tissues, roots, rosette leaves, cauline leaves, stems, flower-bud clusters, siliques and dry seeds (Tamura et al. 2008). The significant accumulation of all three transcripts was, however, observed during seed germination.

The online version of the original article can be found under doi:[10.1007/s11738-017-2445-2](https://doi.org/10.1007/s11738-017-2445-2).
