The article **Second-order and local characteristics of network intensity functions**, written by Matthias Eckardt and Jorge Mateu, was originally published Online First without Open Access. After publication in volume 30, issue 2, pages 318–340, the authors decided to opt for Open Choice and to make the article an Open Access publication. Therefore, the copyright of the article has been changed to © The Author(s) 2021 and the article is forthwith distributed under the terms of the Creative Commons Attribution 4.0 International License, which permits use, sharing, adaptation, distribution, and reproduction in any medium or format, as long as you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons license, and indicate if changes were made.

The images or other third-party material in this article is included in the article's Creative Commons license, unless indicated otherwise in a credit line to the material. If material is not included in the article's Creative Commons license and your intended use is not permitted by statutory regulation or exceeds the permitted use, you will need to obtain permission directly from the copyright holder.

The original article can be found online at <https://doi.org/10.1007/s11749-020-00720-4>.
