Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

This erratum is published due to inconsistencies observed in referencing and citations on the final version.

Vendor overlooked corrections while updating XML new references as per alphabetical order in list and also changed the citation number in text; unfortunately, few reference citations were wrongly updated in XML, which resulted in the error in the final PDF.

The original article has been thus corrected with the corrected references and thus updated.

The original article can be found online at <https://doi.org/10.1007/s11831-019-09343-x>.
