Other Meetings of Note

8th International Symposium on Superalloy 718 and Derivatives
September 28–October 1, 2014
Pittsburgh, Pennsylvania, USA

Energy Materials 2014
November 4–6, 2014
Xi'an Shaanxi Province, China

Arctic Technology Conference
March 23–25, 2015
Copenhagen, Denmark

2015 Offshore Technology Conference
May 4–7, 2015
Houston, Texas, USA

3rd World Congress on Integrated Computational Materials Engineering (ICME 2015)
May 31–June 4, 2015
Colorado Springs, Colorado, USA

Lead Zinc 2015
June 14–17, 2015
Düsseldorf, Germany

13th World Conference on Titanium
August 16–20, 2015
San Diego, California, USA

OTC Brasil
October 27–29, 2015
Rio de Janeiro, Brazil

1st TMS Summit on Integrated Manufacturing and Materials Innovations
November 15–19, 2015
Pittsburgh, Pennsylvania, USA

TMS
 **ANODE TECHNOLOGY**
for the Aluminum Industry

September 8–12, 2014

Tropicana Executive Conference Center
Evansville, Indiana, USA

Registration Deadline: August 8, 2014

- Leading experts in the field have specifically designed this course for plant managers, anode area managers, process engineers, technical managers, and anode area supervisors.
- Course participants will gain an in-depth understanding of necessary practices for quality anodes, as well as learn practical approaches for improving anode production efficiency and performance.

2014 ADVANCED MATERIALS AND MANUFACTURING WORKSHOP

September 9–12, 2014

iWireless Center
Moline, Illinois, USA

Advance Registration: August 8, 2014

- Focuses on applied research suitable for implementation in manufacturing within industry and government agencies.
- Materials to be discussed include titanium alloys, Inconel alloys, aluminum alloys, steel alloys, tungsten carbide-metal matrix composites, and various ceramics.

MS&T 14[®]

October 12–16, 2014

David L. Lawrence Convention Center
Pittsburgh, Pennsylvania, USA

Registration Open!

- Visit www.matscitech.org to register, book housing, and view a preliminary program and schedule information.
- Plan to attend the all-conference plenary, "Drivers for Advanced Manufacturing: Energy, Sustainability, and Economics."

TMS 2014 Industrial Aluminum Electrolysis Course
The Definitive Course on Theory and Practice of Primary Aluminum Production

November 16–20, 2014

Dubai Training Center
Dubai, United Arab Emirates

Registration Deadline: October 20, 2014

- Internationally recognized presenters include Halvor Kvande, Steve Lindsay, Vinko Potocnik, Alton T. Tabereaux, and Barry Welch.

The TMS Middle East - Mediterranean Materials Congress on Energy and Infrastructure Systems **2015**

January 11–14, 2015

Ritz-Carlton Doha
Doha, Qatar

Advance Registration: December 1, 2014

- Confirmed plenary speakers include Dallas Little, Ruston K. Mody, and David McDowell.
- The technical program is organized within three tracks: Sustainable Infrastructure Materials; Materials for Energy Extraction, Conversion, and Storage; and Computational Materials Design.

TMS 2015
144th Annual Meeting & Exhibition

March 11–15, 2015

Walt Disney World
Orlando, Florida, USA

- Registration will open soon at www.tms.org/TMS2015.
- Plan to attend a short course on a minerals, metals, or materials-related topic.
- The entry deadline for the TMS Bladesmithing Competition, as well as many other contests and special activities, is December 15. Check the meeting website for details.
- Excellent exhibit space is still available. Book your space today!
