

TMS Welcomes New Members

The TMS Board of Directors approved professional membership for the following individuals at its May 2017 meeting. Please join us in congratulating and welcoming them to all the privileges and benefits of TMS membership.

- | | | | |
|---|--|--|---|
| Abe, Taichi; National Institute for Materials Science, Japan | Allen, Melissa; GfE Metalle und Materialien GmbH, Germany | Armstrong, David; Oxford University, United Kingdom | Barr, Christopher; United States |
| Abouimrane, Ali; Qatar Environment & Energy Research Institute, Qatar | Allen, Samuel M.; Massachusetts Institute of Technology, United States | Arnold, Michael S.; University of Wisconsin-Madison, United States | Barrett, Christopher D., Mississippi State University, United States |
| Abu El Hawa, Hani; National Energy Technology Laboratory, United States | All-Jassim, Ibrahim; Ma'Aden, Saudi Arabia | Ashad, Firman; PT Indonesia, Indonesia | Barto, Rick; Lockheed Martin ATL, United States |
| Adjaoud, Omar; Technische Universitaet Darmstadt, Germany | Alonso, Arnaldo; Validsa, Spain | Ashida, Yugo; NHK International Corporation, United States | Basak, Chandra Bhanu; BCAST, United Kingdom |
| Ahn, Kwang Soon; Yeungnam University, South Korea | Alper, Mustafa Gokhan; Assan Aluminyum Sanayi Ve Ticaret A.S., Turkey | Ashino, Toshihiro; Tokyo University, Japan | Bassman, Lori C.; Harvey Mudd College, United States |
| Ai, Hua; Sichuan University, China | Ameyama, Kei; Ritsumeikan University, Japan | Asim, Kamran; United States | Beeler, Benjamin W.; Idaho National Laboratory, United States |
| Aitharaju, Venkat; General Motors, United States | Aminahmadi, Behnam; Colorado School of Mines, United States | Askari, Hesamaldin; University of Rochester, United States | Begley, Matthew; University of California Santa Barbara, United States |
| Aitken, Zachary; Institute of High Performance Computing, Singapore | Anagnostou, Elias, L.; Northrop Grumman, United States | Ast, Johannes; EMPA Materials Science & Technology, Switzerland | Belak, James F.; Lawrence Livermore National Laboratory, United States |
| Akimune, Yoshio; Innovative Structural Material Association, Japan | Andersson, Anders; Los Alamos National Laboratory, United States | Azeem, Mohammed A.; University of Manchester, United Kingdom | Belliveau, Thomas F.; Novelis Inc, Canada |
| Al Ansari, Taleb; Aluminium Bahrain, Bahrain | Ando, Makoto; UACJ Trading (America) Company Ltd, United States | Balog, Martin; Institute of Materials, SAS, Slovakia | Benson, William E.; United States |
| Al Baqali, Ali; Aluminium Bahrain, Bahrain | Andrews, Ross K.; Argonne National Laboratory, United States | Banerjee, Srikumar Bhabha; Atomic Research Centre, India | Berger, Jonathan; University of California Santa Barbara, United States |
| Al Khaili, Owaida; Gulf Fluor, United Arab Emirates | Ankit, Kumar; Texas A&M University, United States | Baneyx, Francois; University of Washington, United States | Berlanga Rubi, Adriana Isabel; Hylsa S.A De C.V, Mexico |
| Al-Alyani, Ali; Sabic, Saudi Arabia | Andriollo, Tito; Technical University of Denmark, Denmark | Bang, Jung-Hwan; Korea Institute of Industrial Technology, South Korea | Bertrand, Emmanuel; CNRS /University De Nantes, France |
| Albalushi, Fahim; Sohar Aluminium, Oman | Angelici, Avincola Valentina; University of Virginia, United States | Bantounas, Ioannis; Imperial College London, United Kingdom | Bhabhrawala, Salim; United States Department of Commerce, United States |
| Albe, Karsten; Technische Universität Darmstadt, Germany | Ankit, Kumar; Texas A&M University, United States | Bao, Hansheng; China Iron & Steel Research Institute Group, China | Bhatia, Vijay; University of Sydney, Australia |
| Aldanondo, Egoitz; IK4-LORTEK, Spain | Arava, Leela Mohana Reddy; Wayne State University, United States | Barber, John; Los Alamos National Laboratory, United States | Bichler, Lukas; University of British Columbia, Canada |
| Al-Dojayli, Maher; Hatch Ltd, Canada | Arachabaleta, Zaloa; Delft University of Technology, Netherlands | Barbieri, Patrick; Hatch, Canada | Bichon, Barron; Southwest Research Institute, United States |
| Aljabri, Hamed Hamood; Sohar Aluminium, Oman | Arias Jaramillo, Yhan Paul; Universidad Nacional De Colombia, Colombia | Barker, Erin Lesulauro; Pacific Northwest National Laboratory, United States | Billington, David; Jasri-SPRING-8, Japan |
| Allais, Bernard; Rio Tinto Aluminium Pechiney, France | Arkhipov, Alexander; Emirates Global Aluminium, United Arab Emirates | Barnes, John Edward; Arconic, United States | |

Birbasar, Onur; Assan Aluminyum Sanayi Ve Ticaret A.S., Turkey	Brown, Judith; Sandia National Laboratories, United States	Cardinell, Charles; Alion Science & Technology, United States	Chen, Hua; Changchun University of Technology, China
Bishop, Brian; EWI, United States	Bruehl, Sonia; National Technological University, Argentina	Carlton, Holly; Lawrence Livermore National Laboratory, United States	Chen, Ruirun; Harbin Institute of Technology, China
Bitzek, Erik; University of Erlangen-Nuremberg, Germany	Bruneseaux, Fabien; Saint Gobain Pam, France	Carrasco, Eduardo; Nemark, Mexico	Chen, Shih-Yun; National Taiwan University of Science and Technology, Taiwan
Bitzer, Ingo; Feinguss Blank GmbH, Germany	Bruski, Richard S.; Novelis, United States	Carrete Montana, Jesus; Technical University Wien, Austria	Chen, Siwei; Central Research Institute of Electric Power Industry, Japan
Bjerre, Mathias; Technical University of Denmark, Denmark	Buandra, Ade; PT Indonesia, Indonesia	Carrier, Claude; Rio Tinto, Canada	Chen, Wei; North China University of Science & Technology, China
Blasi, Alessandro; ENEA Research Center of Trisaia, Italy	Buckingham, Ross; Rolls-Royce Plc, United Kingdom	Carroll, Jay D.; Sandia National Laboratories, United States	Chen, Wen; Lawrence Livermore National Laboratory, United States
Blendell, John; Purdue University, United States	Buenck, Matthias; Access E.V., Germany	Carter, Jesse J.; Bettis Laboratory, United States	Chen, Youxing; Los Alamos National Laboratory, United States
Boardman, Tim; Graftech International, United States	Butler, Ronald; Superior Graphite, United States	Carter, W. Craig; Massachusetts Institute of Technology, United States	Chen, Yue; The University of Hong Kong, Hong Kong
Bogdanov, Iurii; Rusal ETC, Russian Federation	Cabrera, Jose-Maria M.; Universidad Politecnica De Catalunya, Spain	Carvajal, Gloria; Universidad De Medellin, Colombia	Chen, Yuyong; Harbin Institute of Technology, China
Boldsaihan, Enkhsaikhan; Wichita State University, United States	Caccuri, Vincenzo; ISAE/ Ecole Nationale Supérieure De Mécanique Et D'aérotechnique, France	Casasole, Matthieu; Carbone Savoie, France	Chen, Yuzeng; Northwestern Polytechnical University, China
Bones, John; Sintef, Norway	Cadenazzi, Guido; La Trobe University, Australia	Castaneda, Homero; Texas A&M University, United States	Chen, Zhan Wen; Auckland University of Technology, New Zealand
Borchers, Hartmut; Aluminium Oxid Stade GmbH, Germany	Cai, Biao; University of Manchester, United Kingdom	Castillo, Victor; Lawrence Livermore National Laboratory, United States	Chen, Zi; Dartmouth College, United States
Borim, Agnello J.A.; Alcoa Corporation, Canada	Cakmak, Ercan; Oak Ridge National Laboratory, United States	Castineira, Cesar; SGL Group, Spain	Cheng, Chuan; Hamburg University of Technology, Germany
Borkovets, Denis; Energoprom Group, Russian Federation	Calderon, Hector A.; Instituto Politecnico Nacional, Mexico	Cha, Wonsuk; Argonne National Laboratory, United States	Cheng, Jiahao; Johns Hopkins University, United States
Bosker, John; Bond Technologies, Inc, United States	Callahan, Patrick; University of California Santa Barbara, United States	Chakoumakos, Bryan C.; Oak Ridge National Laboratory, United States	Chernatynskiy, Aleksandr; Missouri Science & Technology University, United States
Brainard, Jamie; United States Geological Survey, United States	Calvo, Jessica; Barcelona Tech, Spain	Chakravarthy, Srinath; Northeastern University, United States	Cherukara, Mathew; Argonne National Laboratory, United States
Braulio, Mariana; 4cast - Materials Consultancy, Brazil	Cannell, Gary R.; Fluor, United States	Chandler, Mei Q.; Army Corps of Engineers, United States	Chew, Huck Beng; University of Illinois, United States
Brausch, Mike J.; Foseco, United States	Cannoni, Rogerio; Rovica, Brazil	Chaouki, Hicham; Laval University, Canada	Chiharu, Mitsumata; National Institute for Materials Science, Japan
Bromage, Bruce; Liquidmetal, United States	Cao, Jian; Northwestern University, United States	Chaput, Laurent; University De Lorraine, France	Chikhhradze, Mikheil; Ferdinand Tavadze Institute of Metallurgy and Materials Science, Georgia
Brown, Andrew D.; UNSW Canberra, Australia	Cao, Zh; Nanjing University, China	Chatterjee, Ritayan; Haldia Institute of Technology, India	Chino, Yasumasa; National Institute of Advanced Industrial Science and Technology, Japan
Brown, Arthur L.; National Aeronautics and Space Administration, United States	Cao, Fang; Exxonmobil Research & Engineering Company, United States	Chattopadhyay, Kinnor; University of Toronto, Canada	
Brown, Donald W.; Los Alamos National Laboratories, United States	Capolungo, Laurent; Los Alamos National Laboratory, United States	Chaudhury, Prabir Kanti; Exova, United States	
	Cardinal, Sandrine; Institut National des Sciences Appliquées de Lyon, France	Chen, Fei; Wuhan University of Technology, China	
		Chen, Houwen; Chongqing University, China	

Chisholm, Claire; Sandia National Laboratories, United States	Collins, James G.; Georgia Institute of Technology, United States	Davila, Lilian P; University of California Merced, United States	Du, Jing; Pennsylvania State University, United States
Cho, Ki-Sub; Kookmin University, South Korea	Comings, Lyle; Skanska, United States	Davoine, Cecile; Onera, France	Duggan, Sam Mack; Skanska, United States
Cho, Kyeongjae; University of Texas Dallas, United States	Conforto, Egle; University of La Rochelle, France	De Geuser, Frederic; SIMaP - University Grenoble Alpes, France	Duh, Jenq-Gong; National Tsing Hua University, Taiwan
Choi, Heechae; Virtual Lab Inc, South Korea	Connolly, Brendan M.; Ellwood Quality Steels, United States	De Jong, Maarten; SpaceX, United States	Dundar, Murat Murat; Assan Alüminyum Sanayi Ve Ticaret As, Turkey
Choi, Pankyu; MTI Company Ltd, South Korea	Conte, Marcello; Anton Paar Tritec, Switzerland	Deibler, Lisa, A.; Sandia National Laboratories, United States	Dupraz, Maxime; Paul Scherrer Institute, Swaziland
Choi, Pyuck-Pa; Korea Advanced Institute of Science & Technology, South Korea	Cook, Ray; New Zealand Aluminium Smelters Limited, New Zealand	Demange, Gilles; University of Rouen, France	Dutta, Biswanath; Max-Planck-Institut für Eisenforschung, Germany
Choi, Wonbong; University of North Texas, United States	Cooper, Bernie; Regain Technologies Pty Ltd, Australia	Demetriou, Marios D.; Glassimetal Technology, United States	Dvivedi, Akshay; Indian Institute of Technology Roorkee, India
Choudhary, Kamal; National Institute of Standards & Technology, United States	Cooper, Khershed P.; National Science Foundation, United States	Denquin, Anne; Onera, France	Dziedzic, Dominik; University of Cambridge, Agh, United Kingdom
Chougule, Sandip; Bharat Forge Limited, Pune, India	Cooper, Valentino; Oak Ridge National Laboratory, United States	Desgranges, Lionel; CEA-Den, France	Eager, Julie; Naval Nuclear Laboratory, United States
Christensen, Peter Tim; Skamol A/S, Denmark	Corni, Stefano; CNR Institute of Nanoscience, Italy	Dey, Poulumi; Max-Planck-Institut für Eisenforschung, Germany	Eaksuwanchai, Preeyakarn; Osaka University, Japan
Chu, Mansheng; Northeastern University, China	Cote, Patrice; Rio Tinto Aluminium, Canada	Dhar, Suranjeeta; Ford Motor Company, United States	Eapen, Jacob; North Carolina State University, United States
Chun, Jung-Hoon; Massachusetts Institute of Technology, United States	Couret, Alain; Center for the Development of Materials and Structural Studies /CNRS, France	Di Luch, Anibal C.; National Atomic Energy Commission, Argentina	Eastham, Thomas; Woodland Fluid Power Inc, United States
Chung, Richard; San Jose State University, United States	Covarrubias, Octavio; Universidad Autonoma, Mexico	Dickens, Philip; University of Nottingham, United Kingdom	Eberhart., Mark, E.; Colorado School of Mines, United States
Chushkin, Yuriy; European Synchrotron Radiation Facility, France	Craparo, Joseph; ERCO, United States	Dienstfrey, Andrew; National Institute of Standards & Technology, United States	Ebihara, Kenichi; Japan Atomic Energy Agency, Japan
Cima, Michael J.; Massachusetts Institute of Technology, United States	Cui, Chuanyong; Institute of Metal Research Chinese Academy of Sciences, China	Ding, Wei; Inner Mongolia University of Science & Technology, China	Eckel, Zak; HRL Laboratories, LLC, United States
Cinbiz, Mahmut Nedim; Oak Ridge National Laboratory, United States	Currell, Brad; Solaft Filtration, Australia	Dobron, Patrik; Nuclear Physics Institute of The Czech Academy of Sciences, Czech Republic	Egan, Garth; Lawrence Livermore National Laboratory, United States
Ciriello, Carmine; Analyze and Improve, Canada	Dahl, Nina; Sintef, Norway	Doll, Gary, L.; University of Akron, United States	Eichel, Daniel; Terrapower, United States
Claude, Estournes; CNRS/ CIRIMAT, France	Dalgaard, Elvi; Pratt & Whitney Canada, Canada	Dong, Hongbiao; University of Leicester, United Kingdom	Eiken, Janin; Access E.V., Germany
Clegg, Bill; University of Cambridge, United Kingdom	Dallaire, Michael; Laserax, Canada	Donoghue, Jack; University of Manchester, United Kingdom	Eliezer, Dan; Israel
Cloutier, Dany; Rio Tinto, Canada	Dannecker, Marina E.; Blue Origin, United States	Dos Santos, Jorge F.; Helmholtz-Zentrum Geesthacht, Germany	Elkasabi, Yaseen; United States Department of Agriculture-Agricultural Research Service, United States
Coakley, James; Northwestern University, United States	Darling, Seth; Argonne National Laboratory, United States	Downs, Seth; Starkey Labs, United States	Ellis, Tim; Relativity Space, United States
Coghe, Frederik; Be Mod - Royal Military Academy, Belgium	Das, Saptarshi; Pennsylvania State University, United States	Drozdenko, Daria; Nuclear Physics Institute of the Czech Academy of Sciences, Czech Republic	Elsahawi, Hani; Shell, United States
Collins, David M.; University of Oxford, United Kingdom	Davidson, James Leonard; Australian Department of Defense, Australia	Du, Hualong; Applied Research Associates, Inc, United States	

Erisir, Ersoy; Kocaeli University, Turkey	Frisk, Karin; Innomat, Sweden	Ghodrat, Maryam; Western Sydney University, Australia	Grabowski, Kenneth; Naval Research Laboratory, United States
Ertekin, Elif; University of Illinois, United States	Frith, Matthew; Oak Ridge National Laboratory, United States	Ghorbani, Hamidreza; Hatch, Canada	Grande, Tor; Norwegian University of Science and Technology, Norway
Espinosa, Horacio; Northwestern University, United States	Frolov, Timofey; Lawrence Livermore National Laboratory, United States	Ghulam, Mohsen; Aluminium Bahrain, Bahrain	Grandfield, Kathryn; McMaster University, Canada
Euh, Kwangjun; Korea Institute of Materials Science, South Korea	Fu, Chu-Chun; CEA, France	Gianola, Daniel S.; University of California Santa Barbara, United States	Grant, Patrick S.; Oxford University, United Kingdom
Everhart, Wesley; DOE Kansas City National Security Campus, United States	Fu, Daxue; Northeastern University, China	Gibbs, Jerry; United States Department of Energy, United States	Greaney, Peter A.; University of California Riverside, United States
Falch, Ken Vidar; Norwegian University of Science and Technology, Norway	Fu, Zhiqiang; University of California, Irvine, United States	Gihleengen, Britt Elin; Hycast AS, Norway	Greer, Julia R.; California Institute of Technology, United States
Fan, Yue; University of Michigan Ann Arbor, United States	Fujii, Hidetoshi; Osaka University, Japan	Gilboe, Derek B.; Lokimox, United States	Greytak, Andrew; University of South Carolina, United States
Farkas, Diana; Virginia Polytechnic Institute, United States	Fujisaki, Keisuke; Toyota Technological Institute, Japan	Gilles, Ralph H.; Technical University Muenchen, Germany	Groth, John; VDM Metals USA, United States
Farooq, Muhammad; Massachusetts Institute of Technology, United States	Fung, Mela; Aerojet Rocketdyne, United States	Giovannini, Tommaso; Imperial College London, United Kingdom	Gu, Wendy; University of California Berkeley, United States
Feinberg, Zechariah; United States	Gabris, Steven M.; Naval Nuclear Laboratory, United States	Giuliani, Finn; Imperial College London, United Kingdom	Guan, Dikai; University of Sheffield, United Kingdom
Feng, Shien Ping; University of Hong Kong, Hong Kong	Gadzic, Mario; Aluminij D.D. Mostar, Bosnia and Herzegovina	Giuntini, Diletta; Hamburg University of Technology, Germany	Guffey, Roland E.; Southwire, United States
Fenning, David P.; University of California San Diego, United States	Gaganidze, Ermile; Karlsruhe Institute of Technology, Germany	Glushko, Oleksandr; Erich Schmid Institute, Austria	Guiraud, Adrien; Csiro, Australia
Ferblantier, Gerald; ICube Laboratory - Strasbourg University, France	Gagnon, Marc; Aluminerie Alouette Inc, Canada	Gneiger, Stefan; LKR Leichtmetallkompetenzzentrum GmbH, Austria	Guo, Chuanhuan; Harbin Engineering University, China
Fidler, Josef; Technical University Wien, Austria	Galli, Giulia; University of Chicago, United States	Gockel, Joy; Wright State University, United States	Guo, Quans; National Institute for Materials Science, Japan
Firdosy, Samad; NASA Jet Propulsion Laboratory, United States	Gamweger, Klaus; RHI, Austria	Godec, Matjaz; Institute of Metals and Technology, Slovenia	Gupta, Arunava; University of Alabama, United States
Flores, Juan F.; Solar Turbines, United States	Gan, Yunhua; South China University of Technology, China	Godfrey, Andrew; Tsinghua University, China	Gur, C. Hakan; Middle East Technical University, Turkey
Fodran, Eric J.; Northrop Grumman, United States	Ganguly, Partha; Baker Hughes, United States	Goll, Dagmar; Aalen University, Germany	Gutierrez, Ivan; National Institute for Materials Science, Japan
Fontes, Luis; Graftech, Brazil	Garcia-Rincon, Omar; TERNIUM Mexico SA de CV, Mexico	Gomes de Silva, Fernanda A.N.; Universidade Federal Do Rio de Janeiro, Brazil	Guy, Sabrina; Rio Tinto, Canada
Foster, Bryant; EWI, United States	Gardarsson, Gardar; Alcoa, Iceland	Gomez-Ferrer, Begonia; Universite de Rouen - GPM, France	Hafberg, Agust; Century Aluminum, United States
Fournier, Joel; Alliance Magnesium, Canada	Gascoin, Franck; Crismat CNRS, France	Gong, Wu; Kyoto University, Japan	Hagen, Eirik; Hydro Aluminium AS, Norway
Fredrickson, Guy L.; Idaho National Laboratory, United States	Geathers, Jason; The Citadel, The Military College of South Carolina, United States	Gonthier, Ghislain; CIR Laboratory Inc, Canada	Hague, Richard; University of Nottingham, United Kingdom
Freund, Lisa; University of Erlangen-Nuernberg, Germany	Gedik, Nihat; Asas Aluminyum Sanayi Ve Ticaret AS, Turkey	Gordon, Michael; University of California Santa Barbara, United States	Hale, Lucas M.; National Institute of Standards and Technology, United States
	Geers, Philip; Blasch Precision Ceramics, United States	Gorr, Bronislava; University of Siegen, Germany	Haley, Daniel; University of Oxford, United Kingdom
	Gettings, Gary; Logan Aluminum, United States		

Halim, Md Abdul; Process Research Ortech Inc, Canada	Henriques, David; Hochschule Mannheim, Germany	Hrkac, Gino; University of Exeter, United Kingdom	Ishida, Hitoshi; Kobe Steel Ltd, Japan
Hall, Rickey; Logan Aluminum, United States	Hernandez, Efrain; Army Research Laboratory/Oak Ridge Institute for Science and Education, United States	Hsia, Michelle T.; United States	Ishii, Akio; Osaka University, Japan
Hamada, Atef S.; University of Science and Technology, Egypt	Herrmann, Steve D.; Idaho National Laboratory, United States	Hsu, Esher; National Taipei University, Taiwan	Jacobs, Jenee; Arconic, United States
Hamilton, Carter; Miami University, United States	Hesterberg, Travis; RSR Technologies, United States	Hu, Alice; City University of Hong Kong, Hong Kong	Jang, Dongchan; Korea Advanced Institute of Science & Technology, South Korea
Han, En-Hou; Institute of Metal Research, China	Hilburn, Skyler; United States Air Force Academy, United States	Hu, Jing; Argonne National Laboratory, United States	Janse Van Vuuren, Arno; Nelson Mandela Metropolitan University-Centre for HRTEM, South Africa
Han, Jun Hyun; Chungnam National University, South Korea	Hilty, Robert, D.; Xtalic, United States	Hu, Liangfa; Ames Laboratory, United States	Janzen, Alexander; EOS, United States
Hardouin Duparc, Olivier; Laboratoire des Solides Irradiés CNRS, France	Hin, Celine; Virginia Polytechnic Institute, United States	Huang, Qingyun; Chongqing University of Science & Technology, China	Jarlsmark, Thomas; Precimeter, United States
Harrison, Robert; University of Huddersfield, United Kingdom	Hinkle, Christopher; University of Texas Dallas, United States	Huang, Shuo; China Iron & Steel Research Institute, United States	Jaworski, Allan W.; Bechtel Marine Propulsion Corporation, United States
Hart, Gus; Brigham Young University, United States	Hintsala, Eric; Bruker, United States	Huang, Xiaojing; Brookhaven National Laboratory, United States	Ji Whan, Ahn; Korea Institute of Geosciences & Miner, South Korea
Hartman, Dan; Mag Specialties Inc, United States	Hirayama, Yusuke; National Institute for Materials Science, Japan	Huang, Yi; Tesla Motors, United States	Jiang, Chao; Idaho National Laboratory, United States
Hartman, Howard; Idaho National Laboratory, United States	Hmelak, Branko; Alcad, Slovenia	Huang, Yi; University of Southampton, United Kingdom	Jiang, David; Scoperta Inc, United States
Hashida, Yusuke; Japan Science & Technology Agency, Japan	Hmelak, Sara; Alcad, Slovenia	Huang, Yongjiang; Harbin Institute of Technology, China	Jiang, Jun; Imperial College London, United Kingdom
Hashimoto, Naoyuki; Hokkaido University of Science, Japan	Hodgkinson, Nicholas; Vesuvius USA, United States	Huber, Liam; Max-Planck-Institut für Eisenforschung, Germany	Jiang, Shengli; Institute of Metal Research, China
Hattori, Tomoya; Jtekt North America, United States	Hoetzer, Johannes; Karlsruhe University of Applied Science, Germany	Hwang, Duck-Young; K. A. T., South Korea	Jimenez, Hernando A.; La Universidad Antonio Nariño, Colombia
Hauck, Heribert; Trimet Aluminium Se, Germany	Hoffman, Nolan; Engineer Research and Development Center, United States	Hydock, Daniel M.; Bechtel Plant Machinery, Inc, United States	Jin, Hyunwoo; Exxonmobil Research & Engineering, United States
Haynie, Tim J.; Bond Technologies, Inc, United States	Hong, Haiping; South Dakota School of Mines & Technology, United States	Ikeda, Tomohiro; Honda Research & Development, Japan	Jin, Xiaoliang; Oklahoma State University, United States
He, Mo-Rigen; University of Wisconsin Madison, United States	Hong, Qijun; Brown University, United States	Im, Seongil; Yonsei University, South Korea	Jokinen, Annika; Bionavis, Finland
He, Xikou; Central Iron & Steel Research Institute, China	Hong, Seungbum; Korea Advanced Institute of Science & Technology, South Korea	Imam, Murshid; Joining & Welding Research Institute, Japan	Jokisaari, Andrea; Northwestern University, United States
Hecht, Ulrike; Access E.V., Germany	Hong, Tao; Clemson University, United States	Inal, Kaan A.; University of Waterloo, Canada	Jones, Reese; Sandia National Laboratory, United States
Heike, Gabrisch; Helmholtz-Zentrum Geesthacht, Germany	Horikawa, Takashi; Tohoku University, Japan	Inomoto, Masahiro; Kobe Steel, Japan	Jonnalagadda, Raghu Shant; Welspun Corporation Ltd, India
Helgadottir, Sigrun; Nordural, Iceland	Horiuchi, Toshiaki; Hokkaido University of Science, Japan	Instone, Stephen S.; Hydro Aluminium Rolled Products GmbH, Germany	Joshi, Ajey; Applied Materials, United States
Henckell, Philipp; Ilmenau University of Technology, Germany	Hoskuldsson, Gauti; Nordural, Iceland	Inui, Haruyuki; Kyoto University, Japan	Jou, Herrng-Jeng; United States
	Hotza, Dachamir; Federal University of Santa Catarina, Brazil	Irukuvarghula, Sandeep; University of Manchester, United Kingdom	
	Houser, Clay A.; Questek Innovations, United States	Irving, Douglas L.; North Carolina State University, United States	

Jur, Jess; North Carolina State University, United States	Kessler, Brian S.; Colorado Mesa University, United States	Ko, Yong-Ho; Korea Institute of Industrial Technology, South Korea	Kwon, Hae-Woong; Pukyong National University, South Korea
Kadkhodaei, Sara; Brown University, United States	Keyser, Mercedes; Boeing, United States	Kobayashi, Satoru; Tokyo Technology, Japan	Kwon, Yongwoo; Hongik University, United States
Kai, Song; Nuclear Power Institute of China, China	Khazdozian, Helena; Ames Laboratory, United States	Kobryn, Pam; Air Force Research Laboratory, United States	Lacroix, David; CNRS, France
Kai, Wu; National Taiwan Ocean University, Taiwan	Kikuchi, Daisuke; Furukawa Electric Company Ltd, Japan	Koerner, Carolin; Friedrich-Alexander University Erlangen-Nürnberg, Germany	Ladam, Guy; University of Rouen Normandy, France
Kalaantari, Haamun; California State Polytechnic University, United States	Kim, Hyungsuk; Hyundai Motors, South Korea	Koh, Seong Jin; University of Texas Arlington, United States	Laeveren, Dirk; Thermo Fisher Scientific, Netherlands
Kamavaram, Venkateswarulu; Oceanit, United States	Kim, Jaehong; Yeungnam University, South Korea	Komarasamy, Mageshwari; University of North Texas, United States	Lagace, Helene; Aleris, United States
Kaminen, Pitcheswara Rao; City University of Hong Kong, Hong Kong	Kim, Jae-Hun; Kookmin University, South Korea	Kondori, Babak; Texas A&M University, United States	Lal, Ratnesh; University of California San Diego, United States
Kang, Huijun; Dalian University of Technology, China	Kim, Jiyoung; LS Cable & System, South Korea	Kong, Fantao; Harbin Institute of Technology, China	Lan, Bo; Imperial College London, United Kingdom
Kang, Seung H.; Qualcomm, United States	Kim, Ju-Hong; K. A. T., South Korea	Konishi, Yasuhiro; Osaka Prefecture University, Japan	Langelier, Valerie; Hatch, Canada
Kao, Andrew; University of Greenwich, United Kingdom	Kim, Kyung Rok; Ulsan National Institute of Science and Technology, South Korea	Koschel, Diana; Constellium C-TEC, France	Lasalvia, Jerry; United States Army Research Laboratory, United States
Kaplan, Daniel; United States Army, United States	Kim, Sang Hyun; Posco, South Korea	Kott, Norbert; United States Army-TARDEC, United States	Laszlo, Toth; Universite de Lorraine, France
Kareer, Anna; University of Oxford, United Kingdom	Kim, Sunho; Sungkyunkwan University, South Korea	Koyama, Yasuhiro; SEC Carbon, Ltd, Japan	Lavoie, Claude; Rio Tinto Aluminium, Canada
Kasada, Ryuta; Kyoto University, Japan	Kim, Tae-Hoon; Sungkyunkwan University, South Korea	Koyanagi, Takaaki; Oak Ridge National Laboratory, United States	Lavoie, Dany; Aluminerie Alouette, Canada
Kaschnitz, Erhard; Austrian Foundry Research Institute, Austria	Kim, Taek-Soo; Korea Institute of Industrial Technology, South Korea	Koyanagi, Yoshihiko; Daido Steel Company Ltd, Japan	Leao, Versiane; Universidade Federal De Ouro Preto, Brazil
Katgerman, Laurens; K.A.T., Netherlands	Kim, Youngha; Pohang Iron and Steel Company, South Korea	Kravchenko, Ilya; Energoprom Group, Russian Federation	Lee, Byoung Hun; Gwangju Institute of Science and Technology, South Korea
Kawabata, Fumimaru; JFE Techno-Research Corporation, Japan	Kim, Young Min; Korea Institute of Materials Science, South Korea	Krizik, Peter; Institute of Materials, SAS, Slovakia	Lee, Hyojong; Dong-A University, South Korea
Kawaguchi, Kenji; Doshisha University, Japan	Kimura, Akihiko; Kyoto University, Japan	Kubushiro, Keiji; IHI Corporation, Japan	Lee, Hyo-Soo; Korea Institute of Industrial Technology, South Korea
Kaya, Muammer; Osmangazi University, Turkey	Kimura, Tomonori; Hitachi, Ltd, Japan	Kuhnt, Christopher; Rutgers Basic Aromatics GmbH, Germany	Lee, Hyunjae; Korea Institute of Industrial Technology, South Korea
Ke, Jia-Hong; University of Wisconsin-Madison, United States	Kinsey, Thomas; Tekna Plasma Systems, Canada	Kumar, Anil; Los Alamos National Laboratory, United States	Lee, Jang-Sik; Pohang University of Science and Technology, South Korea
Keicher, David; Sandia National Laboratories, United States	Kirchheim, Reiner; University of Goettingen, Germany	Kumar, Ashavani; Applied Materials, United States	Lee, Jiwoon; Inha University, South Korea
Kelly, Thomas F.; Cameca Instruments, Inc, United States	Kirchlechner, Christoph; Max-Planck-Institut, Germany	Kumar, Pradeep; Indian Institute of Technology Roorkee, India	Lee, Junggoo; Korea Institute of Materials Science, South Korea
Keshavarz, Shahriyar; National Institute of Standards and Technology (Theiss Research), United States	Kisailus, David; University of California Riverside, United States	Kummel, Andrew; University of California San Diego, United States	Lee, Kyu Hwan; Korea Institute of Materials Science, South Korea
	Klette, Hallgeir; Institute for Energy Technology, Norway	Kundin, Julia; University Bayreuth, Germany	Lee, Minho; Virtual Lab Inc, South Korea
	Kliauga, Andrea; Universidade Federal de Sao Carlos, Brazil	Kung, Johanna; Chemours, United States	
	Knapek, Michal; Charles University, Czech Republic	Kurosaki, Ken; Osaka University, Japan	

- Lee, Namhey; Lawrence Berkeley National Laboratory, United States
- Lee, Young-Kook; Materials Science & Engineering, South Korea
- Lees, Garry; Bridgnorth Aluminium Ltd, United Kingdom
- Legros, Marc; Centre d'Elaboration de Matériaux et d'Etudes Structurales/ CNRS, France
- Leinenbach, Christian; Swiss Federal Laboratories for Materials Science and Technology, Switzerland
- Leroux, Bert; Canmec Industrial Inc, Canada
- Lesica, Susan M.; Department of Energy, United States
- Letz, Timo; IBAU Hamburg, Germany
- Ley, Tyler; Oklahoma State University, United States
- Lhuissier, Jeremie; Trimet, France
- Li, Chen; University of California Riverside, United States
- Li, Hong-Yi; Chongqing University, China
- Li, Jianzhong; Northeastern University, China
- Li, Jiayan; Dalian University of Technology, China
- Li, Jingjing; Pennsylvania State University, United States
- Li, Li; Shanghai Institute of Applied Physics, China
- Li, Liangliang; Tsinghua University, China
- Li, Ling; Virginia Polytechnic Institute, United States
- Li, Ling; Oak Ridge National Laboratory, United States
- Li, Mo; Georgia Institute of Technology, United States
- Li, Ning; Huazhong University of Science & Technology, China
- Li, Tong; Ruhr-University Bochum, Germany
- Li, Wanfeng; Ford Motor, United States
- Li, Xiaona; Dalian University of Technology, China
- Li, Yan; Inner Mongolia University of Science & Technology, China
- Li, Yanhui; Dalian University of Technology, China
- Li, Yanjun; Norwegian University of Science & Technology, Norway
- Li, Yongsheng; Nanjing University of Science & Technology, China
- Li, Yuhong; Lanzhou University, China
- Li, Zhijun; Shanghai Institute of Applied Physics, China
- Lian, Jie; Rensselaer Polytechnic Institute, United States
- Liang, Jiamiao; Shanghai Jiao Tong University, China
- Liang, Jinglong; China
- Liang, Tao; Pennsylvania State University, United States
- Liang, Xiaoping; Chongqing University, China
- Liang, Yongfeng; University of Science & Technology Beijing, China
- Liao, Chien-Neng; National Tsing Hua University, Taiwan
- Liebscher, Christian; Max-Planck-Institute, Germany
- Lin Peng, Ru; Linkoping University, Sweden
- Lin, Yaojun; Wuhan University of Technology, China
- Liotti, Enzo; University of Oxford, United Kingdom
- Littell, Justin; NASA Marshall Space Flight Center, United States
- Liu, Bo; University of Science & Technology Beijing, China
- Liu, Cheng; Chinalco Research Institute, China
- Liu, Feng; Northwestern Polytechnical University, China
- Liu, Guan-Lin; Institute of Nuclear Energy Research, Taiwan
- Liu, Jing; Oerlikon Metco, United States
- Liu, Kun; University of Quebec at Chicoutimi, Canada
- Liu, Lin; Northwestern Polytechnical University, China
- Liu, Xiaochun; Institute of Metal Research, China
- Liu, Yong; Central South University, China
