

## TMS Welcomes New Members

The TMS Board of Directors approved professional membership for the following individuals at its June 2019 meeting. Please join us in congratulating and welcoming them to all the privileges and benefits of TMS membership.

Abbas, Ghazanfar; Cobex GmbH, Germany	Al-Dohani, Mahmood; Sohar Aluminium, Oman	Armstrong, Beth L.; Oak Ridge National Laboratory, United States	Bale, Hrishikesh; Carl Zeiss Microscopy Inc., United States
Abbott, Trevor B.; Magontec Limited, Australia	Alhunaini, Mohammed; Maaden Aluminium Company, Saudi Arabia	Armstrong, David; University of Oxford, United Kingdom	Bang, Jung-Hwan; Korea Institute of Industrial Technology, South Korea
Abdulrahman, Zubeir Daud K.; Tanzania	Ali, Haider; University of Central Florida, United States	Arnold, Craig; Princeton University, United States	Banjab, Ali Jasim; Emirates Global Aluminium, United Arab Emirates
Abid, Aamir D.; Global Advanced Metals, United States	Alleman, Coleman; Sandia National Laboratories, United States	Arregui-Mena, Jose David; Oak Ridge National Laboratory, United States	Bao, Yuping; University of Alabama, United States
Acar, Handan; University of Oklahoma, United States	Almahamedh, Hussain H.; Sabic, Saudi Arabia	Asari, Yusuke; Hitachi Ltd., Japan	Baraboshkin, Kirill; JSC Severstal Management, Russian Federation
Adapa, Venkata Surya K; Delta Air Lines, United States	Al-Omari, Imaddin; Sultan Qaboos University, Oman	Asrar, Nausha; Schlumberger, United States	Barbati, Alexander; Desktop Metal, United States
Agbenyegah, Gordon E. K.; University of Auckland, New Zealand	Ambrosek, James; Woodward, United States	Auger, Thierry; CNRS, France	Barela, Steven; Terves Inc., United States
Agrawal, Richa; Naval Postgraduate School, United States	Amram, Dor; Technion - Israel Institute of Technology, Israel	Aune, Ragnhild E.; Norwegian University of Science and Technology, Norway	Barrett, Christopher D.; Mississippi State University, United States
Agrawal, Vinamra; Auburn University, United States	Ananthanarayana, Durga; KTH Royal Institute of Technology, Sweden	Aytug, Tolga; Oak Ridge National Laboratory, United States	Barriobero-Vila, Pere; German Aerospace Center (DLR), Germany
Ahmad, Arsalan; Institute of Advanced Materials, Pakistan	Anderson, David; Oak Ridge National Laboratory, United States	Azevedo, Eugenio; Alcoa of Australia Limited, Australia	Bartles, Dean L.; National Tooling and Machining Association, United States
Aindow, Tai-Tsui; University of Connecticut, United States	Andersson, Joakim Z.; ABB, Sweden	Babaniaris, Steven; Deakin University, Australia	Bartlett, Laura N.; Missouri University of Science & Technology, United States
Akamatsu, Silvere; CNRS, France	Andoh, Samuel; Volta Aluminium Co. Ltd., Ghana	Bachmaier, Andrea; Erich Schmid Institute, Austria	Bathula, Vishwanadh; University of Pittsburgh, United States
Akdođan, Vakur Ugur; Assan Aluminium, Turkey	Antolovich, Bruce F.; ATI Specialty Materials, United States	Badaeva, Ekaterina A.; BR&T/Boeing, United States	Battison, Mark; Quintus Technologies, United States
Akhtar, Shahid; Hydro Aluminium, Norway	Antoniou, Antonia; Georgia Institute of Technology, United States	Badwe, Nilesh; Intel Corporation, United States	Baughman, Adam; Naval Sea Systems Command, United States
Al Balushi, Omar A.; Sohar Aluminium, Oman	Antrekowitsch, Juergen; University of Leoben, Austria	Bahl, Sumit; Oak Ridge National Laboratory, United States	
Al Jawi, Mohammad H.; Emirates Global Aluminium, United Arab Emirates	Apollo, Nicholas V.; University of Pennsylvania, United States	Bai, Hao; University of Science and Technology Beijing, China	
		Baldinozzi, Gianguido; CNRS, University of Paris Saclay, France	

Beaulieu, Gilles B.; ICS, Canada	Bobel, Andrew; General Motors, United States	Caliskanoglu, Ozan; Stirtec GmbH, Austria	Chatterjee, Kamalika; Cornell University, United States
Beausoleil, Geoffery L.; Battelle Energy Alliance, United States	Bogno, Abdoul-Aziz; University of Alberta, Canada	Campice, Giovanni; T.T. Tomorrow Technology, Italy	Chen, Chih-Hsuan; National Taiwan University, Taiwan
Beck, Matthew J.; University of Kentucky, United States	Boldsai Khan, Enkhsaikhan; Wichita State University, United States	Campos, Ricardo; Albras, Brazil	Chen, Dengke; Georgia Institute of Technology, United States
Belgraver, Jaco; KBM Master Alloys, Netherlands	Borgonia, John Paul; Jet Propulsion Laboratory, United States	Cao, Penghui; University of California, Irvine, United States	Chen, Gang; University of Science and Technology Beijing, China
Ben Aiban, Saad; Saudi Mining Co. (Ma'Aden), Saudi Arabia	Boulet, Pascal; Aix-Marseille University, France	Cao, Xinjin; National Research Council, Canada	Chen, Ke; Shanghai Jiao Tong University, China
Benac, Dan; Baker Engineering & Risk, United States	Bowers, Darren W.; United States	Caravaca, Elbert; U.S. Army ARDEC, United States	Chen, Wei-Ying; Argonne National Laboratory, United States
Bernard, Ameline; Rio Tinto, Canada	Brennhaugen, David D.E.; Norwegian University of Science and Technology, Norway	Carlone, Angelo; Innovative Control Solutions Inc., Canada	Chen, Xi; University of Texas at Austin, United States
Berry, Joel M.; Lawrence Livermore National Laboratory, United States	Bringuiet, Stefan; General Atomics, United States	Carlson, James; Haynes International Inc., United States	Chen, Xinbin; Yujia Advanced Materials Co. Ltd., China
Bessa, Miguel; Delft University of Technology, Netherlands	Broderick, Scott; University at Buffalo, United States	Carrada, Marzia; CEMES-CNRS, France	Chen, Yinglong; Dow Chemical Company, United States
Bessais, Lotfi; ICMPE, UPEC, CNRS, France	Brosnan, Kristen H.; GE Research, United States	Carver, Rodney F.; AMG Aluminum, United States	Chen, Youxing; University of North Carolina at Charlotte, United States
Beyer, Tobias; TRIMET Aluminium SE, Germany	Broz, Pavel; Masaryk University, Ceitec Mu, Czech Republic	Castillo, Vic; Lawrence Livermore National Laboratory, United States	Chen, Yue; University of Hong Kong, Hong Kong
Bhattacharya, Arunodaya; Oak Ridge National Laboratory, United States	Bulsara, Mayank T.; Matheson, United States	Cauthen, Cole; Southern Research, United States	Chen, Yunhui; University College London, United Kingdom
Bhattacharyya, Jishnu; University of Virginia, United States	Burke, Michael; Electric Power Research Institute, United States	Cecen, Ahmet; ExxonMobil Chemicals Company, United States	Cheng, Huanyu; Pennsylvania State University, United States
Biener, Juergen; Lawrence Livermore National Laboratory, United States	Bux, Sabah; Jet Propulsion Laboratory, United States	Chae, Youngwook; POSCO, South Korea	Cherolis, Nicholas E.; Baker Engineering, United States
Bilheux, Hassina Z.; Oak Ridge National Laboratory, United States	Byczynski, Glenn E.; NEMAK, Canada	Chambers, Brian; Shell, United States	Chinnasamy, Chins; Carpenter Technology Corporation, United States
Billings, Jay; Oak Ridge National Laboratory, United States	Cadenazzi, Guido; La Trobe University, Australia	Chan, Allen; Praxair Inc., United States	Cho, Jung-Wook; Pohang University of Science and Technology, South Korea
Blackford, Asheley K.; AFRL Research Collaboration Program, United States	Cai, Lu; Westinghouse, United States	Chan, Ellen H.; Stryker Corporation, United States	Cho, Kyung Mox; Pusan National University, South Korea
	Caillard, Daniel; CNRS-CEMES, France	Chang, Chih-Hung; Oregon State University, United States	
	Cain, Taylor; U.S. Army Research Laboratory, United States	Chang, Sinting Cynthia; Paul Scherrer Institute, Switzerland	
	Caldwell, Eric C.; Shell, United States	Charest, Sebastien; Aluminerie Alouette, Canada	
	Calin, Mariana; IFW Dresden, Germany	Chatain, Dominique; CNRS, France	

Choi, Daiwon; Pacific Northwest National Laboratory, United States	Colombi Ciacchi, Lucio; University of Bremen, Germany	Dargusch, Matthew S.; University of Queensland, Australia	Dow, Wei-Ping; National Chung Hsing University, Taiwan
Choi, Moo Eob; POSCO, South Korea	Colorado, Henry; Universidad de Antioquia, Colombia	Datz, Christin; Boeing, United States	Du, Chaowei; Max-Planck-Institut Fuer Eisenforschung, Germany
Choi, Shi Hoon; Sunchon National University, South Korea	Conti, Melchiorre; Metalysis, United Kingdom	Daw, Murray S.; Clemson University, United States	Du Laing, Gijs; Ghent University, Belgium
Choi, Won Seok; KAIST, South Korea	Coombe, Vian; Nemak S.A. de C.V., Mexico	De Yoreo, James; Pacific Northwest National Laboratory, United States	Dube, Dany; Idea Controle Inc., Canada
Choo, Hahn; University of Tennessee, United States	Cooper, Michael; Los Alamos National Laboratory, United States	Debastiani, Duane; Vesuvius, United States	Dubois, Christine; Alcoa, Canada
Chou, Yi-Chia; National Chiao Tung University, Taiwan	Cooper, Ryan; University of Connecticut, United States	Deborde, Vincent; GE Power Digital, Switzerland	Duessel, Roman; Trimet Aluminium SE, Germany
Chu, Miaoqi; Argonne National Laboratory, United States	Costa, Guilherme; Albras, Brazil	Delahoussaye, Leah; Oxbow, United States	Duh, Jenq Gong; National Tsing Hua University, Taiwan
Chuang, Chihpin Andrew; Argonne National Laboratory, United States	Costa, Raphael; Hydro, Brazil	Demay, Alex; Derrick Corporation, United States	Dwaraknath, Shyam; Lawrence Berkeley National Laboratory, United States
Chun, Charlie; ExxonMobil, United States	Cottura, Maeva; CNRS, France	Deng, Chuang; University of Manitoba, Canada	Dybalska, Agnieszka; University of Birmingham, United Kingdom
Clare, Alexis; Alfred University, United States	Craparo, Joe; Energy Research Company, United States	Deng, Zhiyin; Northeastern University, China	Dzivenu, Perry; Volta Aluminium Co. Ltd., Ghana
Clark, John; Oxmet Technologies, United Kingdom	Crocobette, Jean Paul; CEA Saclay, France	D'Errico, Fabrizio; Politecnico di Milano, Italy	Ebadat, Vahid; Stonehouse Process Safety, United States
Clark, Samuel J.; University College London, United Kingdom	Cruzado, Aitor; Texas A&M University, United States	Dholabhai, Pratik P.; Rochester Institute of Technology, United States	Echols, John R.; Oak Ridge National Laboratory, United States
Clerin, Philippe M.; Alteo, France	Csuka, Marcelo; Companhia Brasileira de Alumínio, Brazil	Di Gioacchino, Fabio; Colorado School of Mines, United States	Edmondson, Philip; Oak Ridge National Laboratory, United States
Clos, Daniel Perez; Norwegian University of Science and Technology, Norway	Cubeddu, Alessandro; University Wuppertal, Germany	Diao, Haoyan; Kaiser Aluminum, United States	Efird, Cory; NASA Technology Transfer, United States
Cola, Gary; Flash Steelworks, United States	Cui, Baozhi; Ames Laboratory, United States	Ding, Yi; Tianjin University of Technology, China	Eggeler, Yolita; University of California, Santa Barbara, United States
Colbert, Josee; Rio Tinto, Canada	Cui, Yujie; Tohoku University, Japan	Ding, Yuqing; Canadian Nuclear Laboratories, Canada	Eifler, Dietmar; University of Kaiserslautern, Germany
Colker, Jeff P.; Bell Helicopter - Textron, United States	Cunningham, Nicholas; ATI Specialty Alloys and Components, United States	Dion, Mario; Rio Tinto, Canada	Eiken, Janin; Access E.V., Germany
Collins, David M.; University of Birmingham, United Kingdom	Curtarolo, Stefano; Duke University, United States	Dispinar, Derya; Istanbul University, Turkey	
	Dahan, Itzchak I.; NRCN, Israel	Dong, Hongbiao; University of Leicester, United Kingdom	
	Daly, Matthew; University of Illinois at Chicago, United States	Dontigny, Julie; Hatch Ltd., Canada	
	Damp, Ed; Western Extrusions Corporation, United States	Dorin, Thomas; Deakin University, Australia	
		Dos Santos, Jorge F.; HZG, Germany	

Ekberg, Christian; Chalmers University of Technology, Sweden	Forsgren, Christer; Stena Recycling, Sweden	Gao, Yanfei; University of Tennessee, Knoxville, United States	Graening, Tim; Karlsruhe Institute of Technology, Germany
Elam, Jeffrey; Argonne National Laboratory, United States	Fortier, Martin; Rio Tinto, Canada	Garg, Akanksha; Dow Chemical Company, United States	Graf, Dan; Gopher Resource, United States
Elbakhshwan, Mohamed S.; University of Wisconsin- Madison, United States	Fortin, Sebastien; Rio Tinto - Aluminium Technology Solutions - ARDC, Canada	Gascoin, Franck; CRISMAT CNRS, France	Grant, Patrick S.; University of Oxford, United Kingdom
Emond, Raymond; Rio Tinto, Canada	Fouk III, James W.; Sandia National Laboratories, United States	Ge, Binghui; Anhui University, China	Grassi, John R.; Alotech Ltd. LLC Inc., United States
Eranezhuth, Baburaj G.; Clarkson Aerospace Corporation, United States	Frederick, Curtis; Arconic, United States	Ge, Mingyuan; Brookhaven National Laboratory, United States	Grayson, Jim T.; Pyrotek, United States
Erlebacher, Jonah; Johns Hopkins University, United States	Freitas, Rodrigo; Stanford University, United States	Gebert, A; IFW Dresden, Germany	Griffin, Richard B.; Texas A&M University, United States
Espinosa, Denise C.R.; University of Sao Paulo, Brazil	Friederderf, Fritz John; Luna Innovations, United States	Geelhood, Kenneth J.; Pacific Northwest National Laboratory, United States	Griffiths, William D.; University of Birmingham, United Kingdom
Estrada, David; Boise State University, United States	Fries, Suzana; Ruhr University Bochum, Germany	Gesing, Adam J.; Gesing Consultants Inc., Canada	Groeber, Michael; The Ohio State University, United States
Fallah Mehrjard, Ata; Aurubis AG, Germany	Frisk, Karin; Hogan AB, Sweden	Ghamarian, Iman; University of Michigan, United States	Gu, Yijia; Missouri University of Science and Technology, United States
Favre, Julien; Mines Saint- Etienne, France	Fu, Chenguang; Max Planck Institute, Germany	Gibson, James S.K.-L.; RWTH Aachen, Germany	Guerard, Sebastien; Rio Tinto, Canada
Fecher, Jonas; Heraeus Deutschland GmbH & Co. KG, Germany	Fu Cai, Li; Sunstone, China	Gilles, Ralph H.; Technical University of Munich, Germany	Guillaumont, Laurent; Alteo, France
Fekete, James; Novelis, United States	Fujii, Hidetoshi; Osaka University/ JWRI, Japan	Gilbert, William; Chemours, United States	Guiton, Beth S.; University of Kentucky, United States
Fenton, Kevin; TMS International, United States	Fujiwara, Kosuke; Mitsubishi Heavy Industries Ltd., Japan	Gilles, Ralph H.; Technical University of Munich, Germany	Gulver, Mert; Assan Aluminyum, Turkey
Fergusson, Thomas; CPL Industries, United Kingdom	Fullenwider, Blake; U.S. Army Research Laboratory, United States	Giuliani, Finn; Imperial College London, United Kingdom	Gunnarsson, Gudmundur; Innovation Center Iceland, Iceland
Fleck, Dale; Mazak Megastir, United States	Furlan, Wayne; Baker Hughes, a GE Company, United States	Glover, Carol F.; University of Virginia, United States	Guo, Enyu; Dalian University of Technology, China
Fody, Joshua; NASA Langley Research Center, United States	Gadhe, Padmanabham; A.R.C.I., India	Godec, Matjaz; Institute of Metals and Technology, Slovenia	Guo, Xian Jian; Zijin Mining Group, China
Forien, Jean-Baptiste; Lawrence Livermore National Laboratory, United States	Galicki, Daniel; BWX Technologies, United States	Godet, Stephane; Université Libre de Bruxelles, Belgium	Guo, Xingmin; University of Science and Technology Beijing, China
Forsberg, Kerstin M.; KTH Royal Institute of Technology, Sweden	Gancarz, Tomasz; Institute of Metallurgy and Materials Science, Poland	Gong, Jicheng; Oxford University, United Kingdom	Guo, Zhancheng; University of Science and Technology Beijing, China
	Gandra, Joao; TWI Ltd., United Kingdom	Goo, Nam Hoon; Hyundai- Steel Company, South Korea	
	Gao, Feng; BCAST, United Kingdom	Gorman, Max; Western Extrusions Corporation, United States	
	Gao, Wei; University of Texas at San Antonio, United States	Goulas, Konstantinos; Delft University of Technology / RAMLAB, Netherlands	

Gupta, Satyapriya; Michigan State University, United States	Hartshorn, Devin; Honeywell FM&T, United States	Hirose, Satoshi; Honda R&D, Japan	Hwang, Sun Tae; LG Electronics, South Korea
Gupta, Vipul; GE Research, United States	Hassanipour, Meysam; Kyushu University, Japan	Hogan, Patrick; Veloxint, United States	Idell, Yaakov; Lawrence Livermore National Laboratory, United States
Guziewski, Matthew; U.S. Army Research Laboratory, United States	Hatricksimpers, Jason; National Institute of Standards and Technology, United States	Hogg, Benjamin; Glencore Technology, Australia	Iehara, Masato; Mitsubishi Heavy Industries America, United States
Haataja, Mikko P.; Princeton University, United States	Haugland, Ingrid Bokn; SINTEF, Norway	Holcomb, Jim; Grid Logic Incorporated, United States	Ikeda, Yuji; Max-Planck Institut Fuer Eisenforschung, Germany
Habibi, Hamid; Ontario Power Generation, Canada	Hayamizu, Yuhei; Tokyo Institute of Technology, Japan	Holt, Martin Victor; Argonne National Laboratory, United States	Ishmurzin, Anton; RHI Magnesita, Austria
Hadadzadeh, Amir; University of New Brunswick, Canada	Hayes, Declan; Lam Research, United States	Hong, Lan; Soochow University, China	Issa, Inas; Montanuniversitat Leoben, Austria
Hagen, Eirik; Hydro Aluminium, Norway	Haynie, Tim J.; Bond Technologies Inc., United States	Hool, Alessandra; ESM Foundation, Switzerland	Ivanov, Ilija N.; CNMS, Oak Ridge National Laboratory, United States
Haiyan, Tang; University of Science and Technology Beijing, China	He, Jian; Clemson University, United States	Horton, Linda L.; Department of Energy – Basic Energy Sciences, United States	Jaggi, Amoldeep; Magotteaux Inc., United States
Haley, J; University of Oxford, United Kingdom	Hebert, Daniel; HII-Newport News Shipbuilding, United States	Hoyer, Kay-Peter; Paderborn University, Germany	Jang, Byung-Koog; Kyushu University, Japan
Hallai, Julian; ExxonMobil, United States	Hedström, Peter; KTH Royal Institute of Technology, Sweden	Hsu, Po-Chun; Duke University, United States	Javed, Qamer; Emirates Global Aluminium, United Arab Emirates
Hamed, Ahmed; Purdue University, United States	Hernandez, Efrain; U.S. Army Research Laboratory, United States	Hsu, Yuchen; Toshiba Corporation, Japan	Jensen, Wade; Arconic, United States
Hamilton, Carter; Miami University, United States	Hernandez, Franz; Iowa State University (Ames Laboratory), United States	Hu, Anming; University of Tennessee, United States	Jha, Amit; Aditya Birla Science & Technology Company, India
Han, Kwangsik; Tohoku University, Japan	Hernandez, Ruben; Ellwood Aluminum, United States	Huang, Xiaojing; Brookhaven National Laboratory, United States	Jia, Zhihong; Chongqing University, China
Han, Weizhong; Xi'an Jiaotong University, China	Hernandez Arria, Heber; University of Texas at Dallas, United States	Huber, Christian; University of Vienna, Austria	Jiang, Chao; Idaho National Laboratory, United States
Harder, Ross J.; Argonne National Laboratory, United States	Hickey, William; Southwest Research Institute, United States	Huegel, David; Westinghouse Electric Co., United States	Jiang, Peng; Dalian Institute of Chemical Physics, China
Hardin, Thomas J.; Massachusetts Institute of Technology, United States	Hicks, Jason; Reynolds, United States	Hughes, Stephen; Outotec Pty. Ltd., Australia	Jiang, Wen; Idaho National Laboratory, United States
Hart, Gus; Brigham Young University, United States	Hildreth, Owen; Colorado School of Mines, United States	Hurley, David H.; Idaho National Laboratory, United States	Jin, Shenbao; Nanjing University of Science and Technology, China
Hartley, Christopher Jeffrey; Platina Resources Ltd., Australia	Hintsala, Eric D.; Bruker Nano Surfaces, United States	Husnuari, Muhammad; PT Indonesia Asahan Aluminium, Indonesia	
	Hirohata, Atsumi; University of York, United Kingdom	Hutchinson, Maxwell; Citrine Informatics, United States	
		Hwang, Junyeon; Korea Institute of Science and Technology, South Korea	
		Hwang, Seokmin; Hyundai Steel, South Korea	

Jo, William; Ewha Womans University, South Korea	Katgerman, Laurens; K.A.T., Netherlands	Kim, Song-Yi; Korea Institute of Industrial Technology, South Korea	Kuehn, Uta; IFW Dresden, Germany
Johnson, David; Scandium International, Canada	Katsura, Yukari; University of Tokyo, Japan	Kim, Yoolhee; Citrine Informatics, United States	Kuksenko, Viacheslav; U.K. Atomic Energy Authority, United Kingdom
Jones, John; Air Force Research Laboratory, United States	Kaufmann, Nicholas A.; Steel Warehouse, United States	Kimura, Tomonori; Hitachi Ltd., Japan	Kumar, Pradeep; Indian Institute of Technology Roorkee, India
Joo, Soo-Hyun; Tohoku University, Japan	Kawata, Hiroyuki; Nippon Steel & Sumitomo Metal Corp., Japan	King, Chris; Gerdau North America, Canada	Kumar, Praveen; Indian Institute of Science, India
Joubert, Hugo; Tenova Pyromet, South Africa	Ke, Dongjie; Fuzhou Metal-New High Temp Tech Co. Ltd., China	King, Daniel J.M.; Imperial College London, United Kingdom	Kurley, James Matthew; Oak Ridge National Laboratory, United States
Jund, Philippe; Montpellier University, France	Ke, Jia-Hong; Oregon State University, United States	Kinison, Michael; Aleris, United States	Kutsal, Mustafacan; Technical University of Denmark, Denmark
Jung, Yeonwoong; University of Central Florida, United States	Keiser, James; Oak Ridge National Laboratory, United States	Kirchlechner, Christoph; Max Planck Institut Fuer Eisenforschung, Germany	Kuwauchi, Yuki; Nippon Steel & Sumitomo Metal U.S.A., United States
Jung, Young Kil; Hyundai Steel, South Korea	Keles, Ozgul; Istanbul Technical University, Turkey	Klaumunzer, David; Volkswagen AG, Germany	Kwak, Taeyang; Sejong University, South Korea
Kaban, Ivan; IFW Dresden, Germany	Kelley, Alyssa; Xtalic, United States	Kleppe, Nathan; Arconic, United States	Laanait, Nouamane; Oak Ridge National Laboratory, United States
Kadkhodaei, Sara; University of Illinois at Chicago, United States	Kelley, Greg L.; United States	Kobayashi, Hiroyuki; Hitachi Ltd., Japan	Labaj, Grzegorz; Consolidated Precision Products, Poland
Kai, Wu; National Taiwan Ocean University, Taiwan	Kelly, Madeleine N.; Arconic, United States	Kolano-Burian, Aleksandra; Institute of Non-Ferrous Metals, Poland	Lambert, Paul; Navy Surface Warfare Centers - Carderock, United States
Kanakithodi, Arun Kumar; Argonne National Laboratory, United States	Keshavarz, Shahriyar; National Institute of Standards and Technology, United States	Komarasamy, Mageshwari; Pacific Northwest National Laboratory, United States	Langle, Jean-Francois; GE Power Norway AS, Norway
Kanamaru, Shuhei; Matheson Tri-Gas Inc., United States	Khakim, Luthfil; PT Indonesia Asahan Aluminium, Indonesia	Korte-Kerzel, Sandra; RWTH Aachen University, Germany	Langston, Thomas; Paccar Technical Center, United States
Kang, Jungshin; Korea Institute of Geoscience and Mineral Resources, South Korea	Khanal, Subarna Raj; University of Pittsburgh, United States	Korzniakova, Elena; Russian Academy of Sciences, Russian Federation	Lapointe, Francis; Sotrem-Maltech, Canada
Kang, Peter; Naval Air Systems Command, United States	Kikuchi, Shoichi; Shizuoka University, Japan	Koschel, Diana; Constellium C-Tec, France	Lapouge, Pierre; PIMM - ENSAM, France
Kang, Youngjo; Dong-A University, South Korea	Kim, Hyun-Gil; Korea Atomic Energy Research Institute, South Korea	Kouraytem, Nadia; University of Utah, United States	Latypov, Marat I.; University of California, Santa Barbara, United States
Kapp, Marlene; Voestalpine Wire Rod, Austria	Kim, Jeoung-Han; Hanbat National University, South Korea	Kovnir, Kirill; Iowa State University, United States	Laudig, Lauren; Oxbow, United States
Karadge, Mallikarjun B.; General Electric - Global Research, India	Kim, Jinwoo; Massachusetts Institute of Technology, United States	Kowalczyk, Maciej; Warsaw University of Technology, Poland	Laurent, Deronne; PPG, France
Kardoulaki, Erofilli; Los Alamos National Laboratory, United States	Kim, Jong-Hyoung; Seoul National University, South Korea	Koyama, Yasuhiro; SEC Carbon, Japan	
	Kim, Kyoungdoc; Northwestern University, United States	Krishnan, Ajay; Incodema3D, United States	
		Kuang, Jian; Oryx Advanced Materials Inc., United States	

Laws, Kevin J.; University of New South Wales, Australia	Li, Bin; University of Nevada, Reno, United States	Lin, Yirong; University of Texas at El Paso, United States	Madhukar, Anupam; University of Southern California, United States
Leblanc, Saniya; George Washington University, United States	Li, Bo-Shiuan; University of Oxford, United Kingdom	Liu, Geng; Tsinghua University, China	Maeder, Xavier; Empa, Switzerland
Ledonne, Jonathan; Naval Nuclear Laboratory, United States	Li, Hui; North China University of Science and Technology, China	Liu, Huasai; Shougang Group Co. Ltd., China	Maigari, Abubakar; Raw Materials Research and Development Council, Nigeria
Lee, Bin; Korea Institute of Industrial Technology, South Korea	Li, Jing; Element Materials Technology, United States	Liu, Jishen; Xinfu Group, China	Maiti, Atanu; Hindalco Industries Ltd., India
Lee, Byeongchan; Kyung Hee University, South Korea	Li, Ning; Xinfu Group, China	Liu, Lin; Northwestern Polytechnical University, China	Malais, Remco; Wagstaff Inc., Netherlands
Lee, Chang Hui; RIST, South Korea	Li, Peng; Fresnel Institute, CNRS, France	Liu, Xue; Institute of Materials, China	Malfliet, Annelies; KU Leuven, Belgium
Lee, Jae Yel; Northwestern University, United States	Li, Qian; Shanghai University, China	Liu, Yingjie; Yancon Baoshengda Industry Co. Ltd., China	Malhotra, Akshay; Tata International Ltd., India
Lee, Jaegab; Kookmin University, South Korea	Li, Qiang; Shanxi Sanjin Carbon Stock Co. Ltd., China	Losego, Mark D.; Georgia Institute of Technology, United States	Mantri, Srinivas Aditya; University of North Texas, United States
Lee, Jin-Seok; Korea Institute of Energy Research, South Korea	Li, Tong; Ruhr-University Bochum, Germany	Lucas, Jacob D.; Aleris Rolled Products, United States	Mariaux, Aurele; Novelis Switzerland SA, Switzerland
Lee, Jung Hyun; Korea Institute of Energy Research, South Korea	Li, Yanjun; Norwegian University of Science and Technology, Norway	Lueck, Manfred; Wagstaff Inc., United States	Marin, Gheorghe; Quebec Metallurgy Center, Canada
Lee, Min Ha; KITECH, South Korea	Li, Yaqiong; University of Science and Technology Beijing, China	Luo, C.J.; University College London, United Kingdom	Markmann, Juergen; Helmholtz-Zentrum Geesthacht, Germany
Lee, Sangho; POSCO, South Korea	Li, Yujie; United States	Luo, Haiwen; University of Science and Technology Beijing, China	Marshall, Dustin; TWB Company, United States
Lee, Seungjoon; JWRI, Osaka University, Japan	Li, Yulan; Pacific Northwest National Laboratory, United States	Luong, Dzung Dinh; New York University, United States	Marte, Judson; Veloxint, United States
Lefebvre, Williams; Universite de Rouen Normandie, France	Li, Zushu; University of Warwick, United Kingdom	Lyu, Guo Zhi; Northeastern University, China	Martinez Saez, Enrique; Los Alamos National Laboratory, United States
Legros, Marc; CEMES-CNRS, France	Liang, Jinglong; North China University of Science and Technology, China	Ma, Guojun; Wuhan University of Science and Technology, China	Martinez-Paneda, Emilio; University of Cambridge, United Kingdom
Lehnert, Robert; TU Bergakademie Freiberg, Germany	Liang, Zheng; United States	Ma, Ji; University of Virginia, United States	Marussi, Sebastian; University College London, United Kingdom
Leitner, Alexander; Montanuniversitaet Leoben, Austria	Liao, Chien-Neng; National Tsing Hua University, Taiwan	Maalekian, Mehran; Mat-Tech, Netherlands	Maruyama, Benji; U.S. Air Force, United States
Lesica, Susan M.; U.S. Department of Energy, United States	Liao, Ting; Queensland University of Technology, Australia	Macha, John; Southwest Research Institute, United States	Masaki, Kunitaka; IHI Corporation, Japan
Lewittes, Ben; Bellus Ventures, United States	Liebscher, Christian; Max-Planck-Institut, Germany	Macrae, Allan; Macrae Technologies Inc., United States	
	Lilledahl, Rune; Umoe Industries AS, Norway	Maddali, Siddharth; Argonne National Laboratory, United States	
	Lin, Chia-Wen; National Chung Hsing University, Taiwan		
	Lin, Peng; Purdue University, United States		

Maskaly, Garry; Los Alamos National Laboratory, United States	Meyer, Axel; Riftec GmbH, Germany	Mruthunjayappa, Rajaprakash Belagavi; Bangalore University, India	Ngo, Dinh Bao Nam; Helmholtz-Zentrum Geesthacht, Germany
Mathis, Kristian; Nuclear Physics Institute of the CAS, Czech Republic	Michelic, Susanne K.; Montanuniversitaet Leoben, Austria	Mulder, Albert; Trimet Aluminium SE, Germany	Nguyen-Manh, Duc; U.K. Atomic Energy Authority, United Kingdom
Matlack, Kathryn H.; University of Illinois at Urbana-Champaign, United States	Miller, Cody A.; Los Alamos National Laboratory, United States	Munhoz, Antonio; Universidade Presbiteriana Mackenzie, Brazil	Nicolas, Combe; CEMES - UPR 8011, France
Matos, Sergio; Albras, Brazil	Milligan, Alexandra; Rolls-Royce, United Kingdom	Murugan, Srinivasan; Dhofar University, Oman	Niu, Changning; QuesTek Innovations LLC, United States
Matsushita, Muneo; JFE Steel Corporation, Japan	Minagawa, Akihiro; UACJ Corporation, Japan	Murugesan, Sankaran; Baker Hughes, United States	Nizet, Louis; RFTS LLC, United States
Mayo, Michael; PPG, United States	Miranda, Yuri; CBMM, Brazil	Mushinski, Ken; General Atomics, United States	Nolas, George S.; University of South Florida, United States
Mayrhofer, Paul H.; TU Wien, Austria	Mitchell, John A.; Sandia National Laboratories, United States	Mushongera, Leslie T.; University of Nevada, Reno, United States	Nygren, Kelly E.; Cornell High Energy Synchrotron Source, United States
Mc Dougall, Isobel; Tenova South Africa, South Africa	Mittler, Tim; Technical University of Munich, Germany	Myers, Lance; Alcoa, Australia	Obiso, Daniele; CIC Virtuhcon, TUBAF, Germany
McCormick, Michael; Mac Valves Inc., United States	Miyake, Junji; JX Nippon Mining and Metals, Japan	N. Esmaeely, Saba; The Ohio State University, United States	Ofori-Opoku, Nana; Canadian Nuclear Laboratories, Canada
McFalls, Travis; BWXT, United States	Moen, Lasse; Impec AS, Norway	Nagai, Takashi; Chiba Institute of Technology, Japan	Oh, Ik-Hyun; Korea Institute of Industrial Technology, South Korea
McHood, Jason; Airgas USA LLC, United States	Mohamed Ariff, Azmah Hanim; University Putra Malaysia, Malaysia	Nagami, Yuya; IHI Corporation, Japan	Ohno, Ko-Ichiro; Kyushu University, Japan
McMurtrey, Michael; Idaho National Laboratory, United States	Molina-Aldareguia, Jon; IMDEA Materials Institute, Spain	Najmaei, Sina; U.S. Army Research Laboratory, United States	Oishi, Tetsuo; National Institute of Advanced Industrial Science and Technology, Japan
Meher, Subhashish; Idaho National Laboratory, United States	Momprou, Frederic; CEMES-CNRS, France	Nakamura, Heri; CBA, Brazil	Okello, Alfred; GE Additive, United States
Mendonca, Samuel F.; Bisley & Company Pty Ltd., United Arab Emirates	Montenegro, Joshua A.; Conecus LLC, United States	Nam, Ho-Seok; Kookmin University, South Korea	Ollerton, Bill E.; Airgas, Air Liquide Company, United States
Meng, Wen Jin; Louisiana State University, United States	Moon, Suk-Chun; University of Wollongong, Australia	Narang, Prineha; Harvard University, United States	Olmsted, David L.; University of California, Berkeley, United States
Menghani, Jyoti; SVNIT, India	Moore, Emily; Lawrence Livermore National Laboratory, United States	Nascimento, Lucio; Military Institute of Engineering, Brazil	O'Masta, Mark; HRL Laboratories LLC, United States
Merle, Benoit; University Erlangen (FAU), Germany	Moridi, Atieh; Cornell University, United States	Nashed, Youssef; Argonne National Laboratory, United States	Ortega, Luis Humberto; Texas A&M University, United States
Messner, Mark C.; Argonne National Laboratory, United States	Morin, Derek; Department of Energy, United States	Nayak, Suryakant; Hindalco Industries Ltd., India	Ossa, Alex; Universidad Eafit, Colombia
