The original version of the article unfortunately contains a mistake introduced during the production phase. The equation found in page 809 is incorrect. Also, the “I and N” of the equation found in page 810 should be italicized. The correct presentation of these equations are given below.

$$AP = \frac{\sum \{[RR(c) - 1] \times P(c)\}}{\sum [RR(c) \times P(c)]}$$

$$\Delta Y = I \times N \times (1 - \exp^{-\beta \times \Delta PM})$$

The original article has been corrected.
