Wefel JS, Schagen SB: **Chemotherapy-Related Cognitive Dysfunction.** *Curr Neurol Neurosci Rep* 2012.

The abovementioned article was published online first for the June 2012 issue of *Current Neurology and Neuroscience Reports* (volume 12, issue 3).

The study by Deprez et al. from 2011 (1) is missing in the listing of the 23 cross-sectional neuropsychological studies.

Reference 60 mistakenly cites the cross-sectional study by Deprez et al. instead of the prospective study by this group (2).
