Erratum to: Clin Orthop Relat Res DOI 10.1007/s11999-016-4811-6

In the “Patients and Methods” section, the sentence:

“The acetabular shell consists of titanium alloy with a porous, plasma-sprayed coat of titanium and hydroxyapatite on the outer surface, and a bearing surface of cobalt-chrome with screw holes for additional fixation, if deemed necessary by the surgeon.”

should read:

“The acetabular shell consists of a titanium alloy porous outer surface and a bearing surface of cobalt-chrome with screw holes for additional fixation, if deemed necessary by the surgeon.”

In addition, note that this article was updated to correct the spelling of Jaydev B. Mistry’s name.

The online version of the original article can be found under doi:[10.1007/s11999-016-4811-6](https://doi.org/10.1007/s11999-016-4811-6).
