Erratum to: Clin Orthop Relat Res DOI: 10.1007/s11999-017-5258-0

A financial disclosure statement was improperly reported in the published study, “Use of Compressive Osseointegration Endoprostheses for Massive Bone Loss From Tumor and Failed Arthroplasty: A Viable Option in the Upper Extremity.”

The study should have included the following statement: “The institution of one of the authors (DL) has received, during the study period, funding from NCATS/NIH (UL1 TR000445) for the utilization of the REDCap (Research Electronic Data Capture) database.”

We apologize for the error.
