Publisher Correction: Applied Biochemistry and Biotechnology
<https://doi.org/10.1007/s12010-020-03371-1>

The original version of this article unfortunately contained a mistake in the equation under the “Immobilized Laccase Activity and its Storage Stability” section. The equation should be presented as:

$$\text{Activity recovery (\%)} = \frac{\text{observed activity} \times 100}{\text{starting activity}}$$

The original article has been corrected.
