Correction to: Endocrine

https://doi.org/10.1007/s12020-020-02472-5

The original version of this article unfortunately contained a mistake in "Results" section.

The sentence "Majority of the study participants; n = 38 (95.0%) were on treatment with metformin while only one each (2.5%) were on glycomet and on ayurvedic treatment

at the time of recruitment". should read as "Majority of the study participants; n = 39 (97.0%) were on treatment with metformin while only one (3%) was on ayurvedic treatment at the time of recruitment".

The original article has been corrected.
