The original version of this article unfortunately contained a mistake. The citation of local relapse rates of the EORTC

22881-10882 trial ('boost vs no boost trial') was incorrect. The corrected sentence is given below

"The EORTC "boost vs no boost" trial demonstrated a 10-year cumulative incidence of local relapse of 6.2% for the boost arm compared to 10.2% for the no boost arm"
