Retraction to:

Molecular Biotechnology (2017) 59:207–220
<https://doi.org/10.1007/s12033-017-0007-x>

In a mutual agreement between the editors and authors, the authors have retracted this Article [1].

Concerns were raised regarding Fig. 3B, specifically:

- Part of the 'Nanog' and 'SSEA-4' panels appear to be unexpectedly similar.
- Part 'TRA-1–60' and 'TRA-1–81' panels appear to be unexpectedly similar.

All authors agree to this retraction.
