Correction to: *Journal of Cell Communication and Signaling* (2018) 12:625–629
<https://doi.org/10.1007/s12079-018-0491-1>

The original version of this article unfortunately contained a mistake. In the Abstract section, a production query number (Q2) was inadvertently inserted within the new official gene names of the CCN proteins.

The third sentence of the abstract should read:

Effective October 2018, the genes referred to as *CYR61*, *CTGF*, *NOV* and *WISP1–3* will be respectively designated by the gene symbols *CCN1–6* with corresponding gene names « cellular communication network factor 1–6 ».

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
