<https://doi.org/10.1007/s12098-017-2370-9>

The published online version contains an inadvertent error. On page 8, under the heading “Approach to a Child with Trauma” there is a box with “Primary Survey & Resuscitation”. The second point needs a small correction. It should read as “Follow A-B-C sequence for evaluation and resuscitation”.

<p>Primary Survey & Resuscitation (Table 6)</p> <ul style="list-style-type: none">• To find and relieve immediate life threatening conditions or injuries.• Follow A-B-C sequence for evaluation and resuscitation <p style="text-align: center;">↓</p> <p>Secondary Survey</p> <p>To identify other injuries such as intra-abdominal injuries, long bone fractures</p>
