The Editor-in-Chief has retracted this article (Xu et al., 2020). The article was accepted as part of a guest-edited special issue in Current Psychology. Before the special issue was finalized, the Editor-in-Chief detected problems with editorial handling and peer review and decided not to proceed with the special issue. Post publication peer review found that this article is out of scope for the journal and does not meet the standards required by the journal.

None of the authors of this paper responded to any correspondence from the Editor about this retraction.

Update posted 06 August 2021

The Publisher would like to correct the above statement to acknowledge that Chao-yi Xu responded prior to publication of this notice and disagrees with the retraction.
