Correction to: Neuroethics

<https://doi.org/10.1007/s12152-018-9373-8>

Owing to an oversight, we noted that the acknowledgement section was missing from the original published version of this paper.

The added acknowledgement statement is shown below.

Acknowledgments The authors are grateful to the anonymous reviewers and editors of Neuroethics for their valuable comments leading to the published version of this study. The authors would also like to thank the Better Health Research Theme at the University of Tasmania.

As well, in section “4) Assumptions”, located in Results, there is an embarrassing typo. “Hasson” should have been written as “Hansson”. Our utmost apologies Prof. Sven Ove Hansson.

In the “Limitations of the study” section, “On the on hand” in the fourth line should have been written as “On the one hand”.

The online version of the original article can be found at
