Correction to: Food Anal. Methods

<https://doi.org/10.1007/s12161-017-1064-2>

The original version of this article unfortunately contained a mistake. The sentence “A direct and fast analytical method by ultra-high-**pressure** liquid chromatography-DAD coupled with ESI/MS-MS has been developed for the profiling of phenolic compounds.” should read “A direct and fast analytical method by ultra-high-**performance** liquid chromatography-DAD coupled with ESI/MS-MS has been developed for the profiling of phenolic compounds.” in the Abstract section.

The online version of the original article can be found at <https://doi.org/10.1007/s12161-017-1064-2>.
