Dear My Friends and Colleagues related to the Journal Radiological Physics and Technology,

Our Journal Radiological Physics and Technology (RPT) is 14 years old since the inception of this Journal in 2008. This Journal was initially formed as the Official Journal of the Japanese Society of Radiological Technology (JSRT) and the Japan Society of Medical Physics (JSMP), and later expanded to include the Asia-Oceania Federation of Organizations for Medical Physics (AFOMP). During that time, our Journal has grown remarkably well with your help. However, it was not possible and regrettable for this Journal to be unable in securing an Impact Factor as professional scientific journal. For my health reason, I regrettably resign as Editor-in-Chief, but will continue as Senior Advisor of this Journal. I am very grateful to your continued support

and friendship over the years extended to me, not only as Editor-in-Chief of Radiological Physics and Technology but also as Faculty in the Department of Radiology at the University of Chicago during 1969–2009, and as President of Gunma Prefectural College of Health Sciences during 2009–2016. I expect a great success of this Journal Radiological Physics and Technology in your future efforts. Thank you very much.

Kunio Doi, PhD. in Chicago, IL, USA July 15, 2021.
