Retraction note to: KSCE Journal of Civil Engineering (2020) 24(5):1499-1508
DOI 10.1007/s12205-020-0321-x

The Editor-in-Chief of the *KSCE Journal of Civil Engineering* has retracted the article “Repair of Buckled Concrete Filled Steel Tube Columns Subjected to Axial Compression” published in Volume 24, No. 5, May 2020. After a thorough investigation, it has been established that consent was not obtained from the co-authors prior to the submission of the manuscript. Therefore, the Editor-in-Chief has retracted this article from the literature because of a breach of the Journal's authorship policy in accordance with the Code of Research Ethics of the Korean Society of Civil Engineers. Author Ahmed Almasslawi does not agree with this retraction. Author Talha Ekmekyapar agrees with this retraction. Author Baraa J.M. AL-Eliwi has not responded to any correspondence from the editor or publisher about this retraction.
