Correction to: Journal of Cardiovascular Translational Research
<https://doi.org/10.1007/s12265-018-9846-5>

The authors of this study protocol would like to amend it and clarify that medication adherence was assessed using the 4-item validated Morisky, Green, Levine scale [Morisky DE, Green LW, Levine DM. Concurrent and predictive validity of a self-reported measure of medication adherence. *Med Care*. 1986 Jan;24(1):67–74] rather than the 4-item Morisky Medication Adherence Scale.

Therefore, please modify accordingly:

1) Page 1 - Section “Abbreviations” - MMAS-4 Morisky Medication Adherence Scale-4 Items.

Please remove the abbreviation aforementioned.

2) Page 6 – Subheading “Clinical, Pharmacological, and Gender-Related Factors”.

Manuscript text: “pharmacological therapy and Morisky Medication Adherence Scale-4 Items [75]”.

Please change the text as follows “pharmacological therapy and medication adherence [75]”.

Please change the reference 75 [Shalansky, S. J., Levy, A. R., & Ignaszewski, A. P. (2004). Self-reported Morisky score for identifying nonadherence with cardiovascular medications. *Annals of Pharmacotherapy*, 38(9), 1363–1368] that should be read “Morisky DE, Green LW, Levine DM (1986). Concurrent and predictive validity of a self-reported measure of medication adherence. *Med Care* 24(1):67-74”.
