Retraction to: Archives of Pharmacol Research
(2012) 35:877–886
<https://doi.org/10.1007/s12272-012-0513-0>

The authors have retracted this article (Xiang et al. 2012) because Fig. 4A and Fig. 4B are same as the left-hand panel and the middle panel respectively in Fig. 1 in an article published in Chinese by another author group (Wang et al. 2009). In addition, Associate Professor Xiaoning Li did not give permission to be acknowledged for pathology work. All authors agree with this retraction.
