Retraction Note to: *Physiol Mol Biol Plants* 19(3):421–433 DOI 10.1007/s12298-013-0187-1

This article has been retracted by the editor on account of falsification/fabrication of data in Figure 3 of the above paper, as the corresponding author failed to defend the charge levelled initially at Pubpeer and validated subsequently through an editorial enquiry at PMBP, and also failed to reproduce fresh results sought by the editor. The employer of the author has been intimidated.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s12298-013-0187-1>.
