Correction to: Adv Ther
<https://doi.org/10.1007/s12325-021-01672-3>

In the original article, there are few errors as presented as below.

Table 1: lines related to monthly household income (USD). Column one, rows two, three and four were published as “520.39–1040.80, 1040.79–2601.90 and 2601.89–5203.90 respec-

tively. These should instead be “>520.40–1040.80, >1040.80–2601.90 and >2601.90–5203.90”.

In the first paragraph of page 7, the statement “...fundoscopy was reported by 133 (81.3%)...” should read “...fundoscopy was reported by 113 (81.3%)...”.

The last paragraph on page 7 the sentence “Furthermore, 38 (36%) subjects observed income reduction due to blindness.”, should read “Furthermore, 38 (26%) subjects observed income reduction due to blindness”.

The original article can be found online at <https://doi.org/10.1007/s12325-021-01672-3>.

Table 3: the row ‘color vision’ under ‘scales, the mean value was originally published as ‘48.4’. This value should be ‘4.4’.

Table 5: the row ‘retired due to another reason’, the % was originally published 55.1. This value should be 52.0.

Tables 1, 5 and 6: In the notes was published “1 USD = 3.03 BRL”, should be “1 USD = 3.04 BRL”. The original article has been updated.
