We at JNC, the nuclear cardiology community, the cardiovascular community, the medical profession, and humanity at large mourn the loss of Henry Gewirtz, MD. He affected each one of us in his unique way and in the process advanced our understanding of the principles and applications of coronary physiology and cardiac imaging. A tribute by Ahmed Tawakol, MD, is forthcoming in the next print issue of the Journal. I'm also pleased to announce that Dr. Tawakol will serve as a

Guest Editor, a position held by the late Dr. Gewirtz for the past few years.

Ami E Iskandrian, MD, MASNC

Editor-in-Chief
