

## Thanks to reviewers

Online publiziert: 15 November 2016  
© The Author(s) 2016. This article is available at SpringerLink with Open Access.

**The Editorial Team would like to extend its gratitude to all reviewers for their time and advice that helped us to assess and improve the papers that were submitted to us in 2016. The reviewers' critical and constructive feedback were of great help to raise the journal's quality. We would like to thank Bas Bekkers and Joris de Groot for their most frequent and timely involvement in the review process in 2016.**
